

How to Write a Legal Report?

Legal reports (also referred to as legal memoranda or memos) are designed to outline and explain the legal and factual issues in a case, typically to an attorney or law school professor as a class assignment. Legal memoranda can be written in purely objective style to explain legal issues and likely outcomes in a neutral format. They can also be framed as persuasion, designed to present the "best possible case" from a specific party's perspective.

Tip

Before writing a legal report or memorandum, familiarize yourself with the proper format and organizational rules to help your reader understand your arguments and reasoning.

Formatting the Memorandum

Use a traditional font, such as Arial or Times New Roman in a 12-point size. Adjust the margins to give a uniform one inch on all sides, unless your instructions state otherwise; some offices prefer a larger margin on the left side of the page. Set justification to "left" so that spacing is not distorted.

Some find it helpful to start by filling out the expected section captions as a sort of bare-bones outline before beginning the work of writing the draft:

1. Heading (or case caption)
2. Question Presented
3. Brief Answer
4. Statement of Facts
5. Discussion
6. Conclusion

Keep in mind the audience for your memorandum or report. Typically, this type of report is written for an attorney (or a law school class professor) who may have extensive knowledge of the law in the relevant area, but may not be as familiar with the facts of the specific case. The outline and customary sections are designed to help the reader focus on the most important information without being distracted by extraneous details.

As for line-spacing, typically the Question Presented and Brief Answer sections are single spaced, while the remainder of the memo is double-spaced.

environment Riaz Tejani argues that the rise of for profit law schools shows the limits of a market based solution to American access to justice Building on theories in law political economy and moral anthropology Tejani reveals how for profit law schools marketed themselves directly to ethnoracial and socioeconomic minority communities relaxed admission standards increased diversity shook up established curricula and saw student success rates plummet They contributed to a dramatic rise in U S law student debt burdens while charging premium tuition financed up front through federal loans over time If economic theories have so influenced legal scholarship what happens when they come to shape law school transactions governance and oversight For students promised professional citizenship by these institutions is there a need for protections that better uphold institutional quality and sustainability Offering an unprecedented glimpse of this landscape *Law Mart* is a colorful foray into these essential questions

Power, Legal Education, and Law School Cultures Meera Deo, Mindie Lazarus-Black, Elizabeth Mertz, 2019-10-10 There is a myth that lingers around legal education in many democracies That myth would have us believe that law students are admitted and then succeed based on raw merit and that law schools are neutral settings in which professors also selected and promoted based on merit use their expertise to train those students to become lawyers Based on original empirical research this book investigates this myth from myriad perspectives diverse settings and in different nations revealing that hierarchies of power and cultural norms shape and maintain inequities in legal education Embedded within law school cultures are assumptions that also stymie efforts at reform The book examines hidden pedagogical messages showing how presumptions about theory's relation to practice are refracted through the obfuscating lens of curricula The contributors also tackle questions of class and market as they affect law training Finally this collection examines how structural barriers replicate injustice even within institutions representing themselves as democratic and open revealing common dynamics across cultural and institutional forms The chapters speak to similar issues and to one another about the influence of context images of law and lawyers the political economy of legal education and the agency of students and faculty

Blacks in the Law Geraldine R. Segal, 2016-11-11 In *Blacks and the Law* Geraldine R. Segal carefully and completely details the history and current status of black lawyers judges law professors and law students in the United States Extensive research into all available materials for Philadelphia supplemented by interviews and questionnaires results in an unrivaled study of the situation in one city Her findings are then placed in a national setting by using comparative data from fifteen other American cities The wealth of data presented here shows the persistence of high degrees of racial exclusion and underrepresentation practiced by the legal profession over many years Countervailing these findings are success stories of enormously motivated and determined blacks

who have overcome great obstacles to attain high positions as lawyers and judges Within the legal establishment increasing numbers of whites have dedicated themselves to lowering barriers to black participation Blacks and the Law brings to light the racial prejudices of the white American legal community as well as its efforts to overcome such biases It also shows the massive effort black people have made to achieve significant but limited progress toward integration of the legal profession and indicates the amount of work still ahead This study is therefore of vital interest to all members of the legal profession students of race relations social mobility and the professions Philadelphians and others who follow the struggle for racial equality
