The main goal of religious tourism is aimed at developing human spirituality, spiritual healing, and culture where a person receives the experience of cooperation or involvement with the place in which he resides, his people, culture, and religion. This type of tourism is able to play a significant role in the overall goals of society and to promote the establishment of trusting relationships between people of all cultures and religions. *Global Development of Religious Tourism* is a crucial reference book that contains research on the current religious situation as well as the tourism industry and provides insights on their joint development.
