New-York Daily Tribune Indexes for ..., 1976 **Private International Law and Global Governance** Horatia Muir Watt, Diego P. Fernández Arroyo, 2014-12-18 Contemporary debates about the changing nature of law engage theories of legal pluralism political economy social systems international relations or regime theory global constitutionalism and public international law Such debates reveal a variety of emerging responses to distributional issues which arise beyond the Western welfare state and new conceptions of private transnational authority However private international law tends to stand aloof claiming process based neutrality or the apolitical nature of private law technique and refusing to recognize frontiers beyond those of the nation state As a result the discipline is paradoxically ill equipped to deal with the most significant cross border legal difficulties from immigration to private financial regulation which might have been expected to fall within its remit Contributing little to the governance of transnational non state power it is largely complicit in its unhampered expansion This is all the more a paradox given that the new thinking from other fields which seek to fill the void theories of legal pluralism peer networks transnational substantive rules privatized dispute resolution and regime collision have long been part of the daily fare of the conflict of laws The crucial issue now is whether private international law can or indeed should survive as a discipline This volume lays the foundations for a critical approach to private international law in the global era While the governance of global issues such as health climate and finance clearly implicates the law and particularly international law its private law dimension is generally invisible This book develops the idea that the liberal divide between public and private international law has enabled the unregulated expansion of transnational private power in these various fields It explores the potential of private international law to reassert a significant governance function in respect of new forms of authority beyond the state To do so it must shed a number of assumptions entrenched in the culture of the nation state but this will permit the discipline to expand its potential to confront major issues in global governance

Tales of the Nation Lene Bull-Christiansen, 2004 In light of the uses and misuses of history in Zimbabwean politics in recent years this research report focuses on how versions of the country's liberation war history have become a site of struggle over the definition of Zimbabwean national identity As identity politics often do Zimbabwean nationalism draws on a wide field of cultural symbols of identity and political discourses of inclusion and exclusion Therefore the report takes a cross disciplinary approach to the issue of national identity by mapping out the imaginary field of Zimbabwean nationalism This approach opens up the possibility of cross reading the political discourses of the President and the ruling party ZANU PF with opposing voices such as those in the works of the author Yvonne Vera This cross reading shows how Vera's novels and the political discourses participate in the struggle over Zimbabwean national identity by offering different versions of the nation's history in the form of patriotic history feminist nationalism or narratives of difference In this way the research report adds to our understanding of power and resistance in Zimbabwean politics of national identity *Inheriting the Land* E.

Women and Property in Urban India Bipasha Baruah,2010-11-07 Half the world s population now lives in cities Governments and agencies have made housing the poor a priority but few studies or initiatives focus on women s needs Based on research conducted in Ahmedabad in collaboration with the Self Employed Women s Association SEWA this book maps the constraints and opportunities that low income women throughout the Global South face in securing property which remains overwhelmingly in male hands Their vulnerabilities open a window to assess not only land tenure and property laws but also theoretical approaches to gender and development Although the development community holds out microcredit financing as one potential solution these women s stories reveal its glaring limitations By highlighting the importance of property as a material and symbolic asset in women s empowerment this book carves out new intellectual space in the study

of gender and development **Concept Work** Jason Baird Jackson, 2025-10-07 Folklorists study the richness of customary forms of cultural expression and the everyday social worlds in which all people interact and communicate. They use a range of methods: literary, ethnographic, philological, visual, historical, comparative, artifactual, to engage with and learn from diverse peoples, but they also rely on a stock of key concepts that have grown up within their discipline, including tradition, performance, genre, text, context, community, and identity. But folklorists and their interlocutors live in an ever-changing world in which making sense of new social dynamics requires additional foundational concepts. In *Concept Work*, folklorist and ethnologist Jason Baird Jackson illustrates scholarly concept work in folklore studies through fresh accounts of four concepts that are significant to the field but not yet richly explored by its practitioners: colonization, cultural heritage, cultural appropriation, and the place of folklore and folklore studies within the capitalist world system. Jackson closes the volume with a reflection on teaching and doing concept work with his students-turned-colleagues. *Concept Work* is an essential introduction to the current work being done within folklore studies for teachers and students alike. Logos Library System **Prioritizing People in Ethical Decision-Making and Caring for Cultural Heritage Collections** Nina Owczarek, 2023-06-27 While historically focusing on the object, the study of ethics in conservation has expanded to consider the human aspect of conservation work. This book offers a flexible framework to guide decision-making in line with this development, offering an inclusive, compassionate approach to collections care. This edited volume contributes theories and international examples for advancing conservation practice and providing best practice for the field that centers people in conservation of cultural heritage and collections care. The first part examines the ethical theory that underpins conservation decision-making by challenging outdated norms, introducing updated methods, and demonstrating new ways to approach compassionate collections care. The second part considers the challenges of human-centered ethics in conservation practice, while the final part provides real-world examples and case studies of these best practices in action, including successful challenges to colonial authority. By presenting both theoretical and practical aspects of prioritizing people, this volume establishes the need for rethinking conservation approaches while demonstrating how to do so effectively. Combining theory and practice, *Prioritizing People in Ethical Decision-Making and Caring for Cultural Heritage Collections* is valuable reading for conservation professionals, including collections managers, conservators, curators, and registrars. It will also benefit students working in Cultural Heritage Conservation, Museum studies, and Heritage Studies, as well as those taking courses in Art History and Anthropology. *Private International Law and the Internet* Dan Jerker B. Medicine Women Jim Kristofic,2019-04-15 After the Indian wars many Americans still believed that the only good Indian was a dead Indian But at Ganado Mission in the Navajo country of northern Arizona a group of missionaries and doctors who cared less about saving souls and more about saving lives chose a different way and persuaded the local parents and medicine men to allow them to educate their daughters as nurses The young women struggled to step into the world of modern medicine but they knew they might become nurses who could build a bridge between the old ways and the new In this detailed history Jim Kristofic traces the story of Ganado Mission on the Navajo Indian Reservation Kristofic s personal connection with the community creates a nuanced historical understanding that blends engaging narrative with careful scholarship to share the stories of the people and their commitment to this place

First and Second Chronicles Andrew E. Hill,2003 The Chronicles are more than a history of ancient Israel under the

ascent and rule of the Davidic dynasty They are a story whose grand theme is hope Great battles are fought heroes and tyrants vie for power Israel splits into rival kingdoms and the soul of God's holy nation oscillates between faithlessness and revival Yet above this tossing sea of human events God's covenant promises reign untroubled and supreme First and Second Chronicles are a narrative steeped in the best and worst of the human heart but they are also a revelation of Yahweh at work forwarding his purposes in the midst of fallible people God has a plan to which he is committed Today as then God redirects our vision from our circumstances in this turbulent world to the surety of his kingdom and to himself as our source of confidence and peace Exploring the links between the Bible and our own times Andrew E Hill shares perspectives on 1 and 2 Chronicles that reveal ageless truths for our twenty first century lives Most Bible commentaries take us on a one way trip from our world to the world of the Bible But they leave us there assuming that we can somehow make the return journey on our own They focus on the original meaning of the passage but don't discuss its contemporary application The information they offer is valuable but the job is only half done The NIV Application Commentary Series helps bring both halves of the interpretive task together This unique award winning series shows readers how to bring an ancient message into our postmodern context It explains not only what the Bible meant but also how it speaks powerfully today [Collected Essays](#)
