paper is to provide a better solution to minimize the electrical wastage in operating street lights in this electronic era human became restless and he is not in a position to regulate the manual operations in any field a rapid

automatic control of street light using ldr ppt slideshare - Apr 01 2023

web jan 4 2015 it will automatically turn on street light in the way of leds or bulb coupled with relay working this circuit is very much easy and also the power consumed by the circuit is very low because of the very few components used in the circuit devang loharikar ldr is a device whose sensitivity depends upon the intensity of light falling on it

doc report on automatic street light control system with ldr - Sep 06 2023

web 21 automatic switching of street lights by using ldr and relay we decided to use an light dependent resistor here in this circuit ldr has low resistance in brightness only few ohms and very high resistance in complete darkness nearly 1m ohm so the transistor q1 becomes on in day times and q2 becomes off and hence the relay remains in nc

automatic street light controller system using ldr - Feb 16 2022

web automatic street light using passive infra red pir motion sensor and light dependent resistor ldr sensor where the street lights will automatically turn on and off by detecting the presence of human and amount of luminous energy in the environment at

automatic street lighting system using ldr ijariit - Mar 20 2022

web automatic street lighting system is a simple yet powerful concept which uses ldr sensor as a switch by using this system we can eradicate manual work at 100 it automatically switches the lights on when the sunlight goes below the
