

**T**out phénomène social se déroule dans le temps. Les sciences sociales pourtant n'ont pas beaucoup mobilisé ni explicité la notion de processus qui permet de rendre compte de cette dynamique temporelle. L'analyse processuelle est indispensable pour interpréter des phénomènes qui s'inscrivent dans la durée, qui évoluent, qui connaissent des événements ou des crises, qui intègrent des mutations à des échelles diverses.

Cet ouvrage propose une théorie alliée à une méthode d'analyse des processus biographiques et organisationnels. Il développe un système original reposant sur quatre concepts-clés : les ingrédients issus du contexte, les séquences, les moteurs et les bifurcations. Chacun de ces concepts est expliqué et discuté, puis illustré par des travaux empiriques montrant que ce système d'analyse est susceptible de s'appliquer à des types de processus très divers. L'explicitation finale de la méthode vise à aider le lecteur à opérationnaliser cette démarche dans ses propres travaux.

*Cet ouvrage est le résultat d'un travail collectif mené pendant plusieurs années au LEST à Aix-en-Provence par des sociologues, des gestionnaires et des économistes qui ont conçu ensemble l'architecture originale de ce système d'analyse des processus.*

**Situating Children of Migrants across Borders and Origins** Claudio Bolzman, Laura Bernardi, Jean-Marie Le Goff, 2017-10-25 This open access wide ranging collation of papers examines a host of issues in studying second generation immigrants their life courses and their relations with older generations Tightly focused on methodological aspects both quantitative and qualitative the volume features the work of authors from numerous countries from differing disciplines and approaches A key addition in a corpus of literature which has until now been restricted to studying the childhood adolescence and youth of the children of immigrants the material includes analysis of longitudinal and transnational efforts to address challenges such as defining the population to be studied and the difficulties of follow up research that spans both

time and geographic space In addition to perceptive reviews of extant literature chapters also detail work in surveying the children of immigrants in Europe the USA and elsewhere Authors address key questions such as the complexities of surveying each generation in families where parents have migrated and left children in their country of origin and the epistemological advances in methodology which now challenge assumptions based on the Westphalian nation state paradigm The book is in part an outgrowth of temporal factors immigrants children are now reaching adulthood in more significant numbers but also reflects the added sophistication and sensitivity of social science surveys In linking theoretical and methodological factors it shows just how much the study of these second generations and their families can be enriched by evolving methodologies This book is open access under a CC BY license

Poirel, 2016-10-03T00:00:00-04:00 Les transformations du marché du travail et de l'organisation du travail observées depuis maintenant quelques décennies ont eu des impacts sur les parcours professionnels et de vie de nombreux travailleurs et travailleuses. Si ces transformations sont relativement bien connues dans leurs aspects plus généraux économiques sociaux les façons dont elles s'incarnent plus précisément dans les milieux professionnels et les conséquences concrètes qu'elles ont sur la vie de travail des personnes et sur les personnes elles-mêmes suscitent encore beaucoup de questions. De même les défis que posent ces transformations aux travailleurs dans la gestion de leurs transitions et plus globalement de leur parcours de vie professionnelle et de leurs rôles de vie ainsi que les nombreux enjeux professionnels et personnels auxquels elles donnent lieu soulèvent tout autant d'interrogations. *Dix concepts pour penser le nouveau monde du travail* Daniel

Mercure, 2018-11-20T00:00:00-05:00 Au cours des dernières décennies de nombreux changements économiques politiques et culturels ont bouleversé la nature du travail la manière de l'organiser ainsi que la relation d'emploi. Ces transformations nécessitent de revoir de critiquer et d'actualiser les principaux concepts à partir desquels la sociologie analyse le monde du travail. Dans cet ouvrage les concepts revisités sont les suivants : salariat précarité informalité conflit contrôle et organisation du travail qualification et compétence rapport au travail parcours professionnel insertion professionnelle temporalités. Chacun des concepts retenus est analysé selon une perspective critique qui consiste remettre en question les assises théoriques et empiriques de ceux-ci et une perspective analytique qui vise à arrimer ces concepts fondamentaux aux nouvelles réalités du monde du travail. **Pratiques de travail et dynamiques organisationnelles** Collectif, 2022-04-27T00:00:00-04:00

Le travail est en effervescence. Du management par les algorithmes aux entreprises virtuelles en passant par les nouvelles formes d'autonomie ou de contrôle nos vies professionnelles connaissent des évolutions importantes. Chaque personne doit aujourd'hui vivre avec ces évolutions : le travail pour les professionnels dans les secteurs des services la vente sur les plateformes numériques pour les commerçants l'usage des algorithmes pour les livreurs etc. Les évolutions des pratiques du travail s'inscrivent de plus dans une époque caractérisée par une conscience plus aiguë des risques économiques sociaux sanitaires et environnementaux que nous devons affronter. La crise de la COVID-19 a montré par exemple comment une pandémie peut entraîner des évolutions rapides dans les pratiques de travail d'engagement et de contrôle. Dans quelle mesure ces pratiques sont-elles nouvelles ? Dans quelle mesure réactivent-elles des formes anciennes voire oubliées de l'organisation des activités ? Cet ouvrage invite à penser l'évolution de nos pratiques mais aussi la façon dont nous organisons nos activités professionnelles. Sans jamais présenter les évolutions du monde du travail et des entreprises sous un jour enchanteur ni à l'inverse les dénoncer dans leur ensemble cet ouvrage a l'ambition de fournir des clés de compréhension des transformations en

Collectif, 2013-09-24T00:00:00-04:00 Le monde du travail a connu des profondes mutations On observe une tendance des organisations à exiger de leurs salariés une capacité à accélérer le rythme de production une disponibilité et une flexibilité accrues et des compétences de plus en plus sophistiquées et polyvalentes ce qui entraîne une augmentation sensible du temps de travail et une intensification des terribles conditions difficiles soutenir parfois même impossible maintenir pour de nombreux travailleurs et travailleuses Pour les jeunes adultes qui doivent se former pour faire face aux exigences élevées et multiples des employeurs la formation scolaire constitue une étape charnière du cheminement professionnel et les choix de programmes d'études ainsi que la façon dont les jeunes adultes anticipent l'exercice de leur métier revêtent une importance stratégique au regard de leurs possibilités d'insertion et d'intégration professionnelles Ces mutations posent aussi des défis pour ceux et celles dont les cheminements professionnels se trouvent de plus en plus marqués par l'effritement des garanties liées à l'embauche et par la dégradation générale des conditions de travail Elles posent finalement des défis aux organisations qui prouvent des difficultés à assurer le maintien en emploi d'une main-d'œuvre active et fonctionnelle Les cheminements professionnels se trouvent ainsi plus contingents et plus individualisés et les conséquences individuelles et collectives de ces transformations sont nombreuses démotivation scolaire incertitudes sentimentales d'injustice manque de reconnaissance de l'activité professionnelle insatisfaction au travail pertes identitaires conflits des valeurs souffrance au travail etc Ces considérations invitent à réfléchir au sens que prennent l'insertion et l'intégration socioprofessionnelles et mieux comprendre les processus dynamiques qui contribuent à une intégration en emploi qui a du sens Plus précisément elles invitent à s'arrêter aux enjeux qui constituent la formation et l'entrée sur le marché du travail des jeunes diplômés dans un contexte de forte compétition et d'exigence élevée de qualification

La construcción social de

las trayectorias laborales de jóvenes ,2010 Lejos están los tiempos en que el tránsito de la educación al trabajo era un paso sin mayores incertidumbres. Hoy las trayectorias iniciales de inserción laboral de los jóvenes se caracterizan por entradas y salidas del empleo múltiples exploraciones en condiciones más deterioradas que las de los adultos. Entre las razones de esta gran transformación en los procesos de transición laboral están tanto los cambios en los modelos de acumulación y las dificultades en particular para crear empleos de calidad como el debilitamiento de las instituciones y la irrupción de nuevas subjetividades en torno al empleo. Obviamente no todos los jóvenes tienen márgenes de acción para experimentar en la construcción de una trayectoria laboral acumulativa. Los jóvenes de menores recursos no cuentan con un capital socio educativo que pueda acercarlos a alguno de los insuficientes buenos empleos. Qué respuestas se dan desde las políticas públicas y desde las instituciones educativas y formativas a estas diferencias de oportunidades. Cuáles son sus límites y alcances. Cómo se construyen socialmente nuevas subjetividades a partir del vínculo con las instituciones: escuelas, centros de formación profesional, empresas que intervienen en las transiciones laborales. Estos son algunos de los interrogantes a los que se busca dar respuesta a través de las investigaciones presentadas en este libro.
