Genre Bending Jeremy Rosen, 2025-12-09 Detective horror fantasy romance science fiction spy thrillers westerns zombie novels In recent decades acclaimed and ambitious writers of literary fiction have increasingly gravitated to popular fiction genres In this comprehensive account Jeremy Rosen describes literary fiction's embrace of genre fiction's conceits as genre bending and argues that while literary writers adopt genres for a wide variety of purposes what they share is a revitalized attitude toward genre a recognition that while genres can be used in formulaic ways they can also be adapted and transformed endlessly Rosen reads across the outpouring of fiction of the last several decades by writers like Margaret Atwood Michael Chabon Jennifer Egan Louise Erdrich Kazuo Ishiguro Chang rae Lee David Mitchell Cormac McCarthy Ian McEwan Haruki Murakami and Colson Whitehead He finds that literary writers embrace of popular genres is the product of several seemingly contradictory forces including their attempt to extend a modernist inspired project of formal experiment to pursue high cultural prestige and to preserve the distinctiveness of the literary which they perceive to be under threat while also embracing the role of providing pleasure to readers Examining what today's most critically acclaimed and widely read literary writers have done with the genres of genre fiction Genre Bending reveals the values practices and forms as well as the tensions that constitute literary fiction today

Rustad, 2013-12-17 Written for and read on a computer screen digital fiction pursues its verbal discursive and conceptual complexity through the digital medium It is fiction whose structure form and meaning are dictated by the digital context in which it is produced and requires analytical approaches that are sensitive to its status as a digital artifact Analyzing Digital Fiction offers a collection of pioneering analyses based on replicable methodological frameworks Chapters include analyses of hypertext fiction Flash fiction Twitter fiction and videogames with approaches taken from narratology stylistics semiotics and ludology Essays propose ways in which digital environments can expand challenge and test the limits of literary theories which have until recently predominantly been based on models and analyses of print texts      **The Erotics of Talk** Carla Kaplan, 1996 African American women's texts she demonstrates often dramatize their distrust of their readers their lack of faith in the cultural conversation through strategies of self silencing and self talk At the same time she argues the homoerotics of women's writing has too often gone unremarked Not only does longing for an ideal listener draw women's texts into a romance with the reader but there is an erotic excess which is part of feminist critical recuperation itself
