A Paradigm of Comparative Lexicology Floriana Popescu,2018-11-07 Intended to bridge the gap between two languages of the Indo European family this is the first comprehensive bifocal approach to lexicological aspects Through its theoretical distinctions and applications the book recommends itself to language professionals and to any reader interested

in learning more about words It starts with a brief theoretical account of overlapping terms which are given crystal clear disambiguations The book then focuses on structural representations of word formations and word relationships outlining their hierarchicalness and branching directions and revealing various levels of materialization entailed by lexical productivity and frequency of occurrence Each of these hierarchies defines its related techniques and explains lexical creations adaptations or adoptions and interrelationships The approach adopted here proves English to be consistent with formative and sense related hierarchies and shows it to have reached a climax in language evolution with its status of a global language making it the standard in comparative linguistics

English in Europe Manfred Görlach, 2002-05-23 English in Europe charts the English invasion of Europe since 1945 Sixteen distinguished European scholars report on the English words and phrases that have become integral parts of their languages Each describes the effect of English on the host language and shows how the process of incorporation often modifies pronunciation and spelling and frequently transforms meaning and use The languages surveyed are Icelandic Dutch French Spanish Norwegian German Italian Romanian Polish Croatian Finnish Albanian Russian Bulgarian Hungarian and Greek The book is designed as a companion to A Dictionary of European Anglicisms but may be read as an independent work This is the first systematic survey of a phenomenon that is fascinating alarming and apparently unstoppable

Why and How the Ice Age Ended & The True History of the Pontic (White) Race Raven Alb J., 2011-11-16 A complex book which goes from explaining how climate changes based on changing of the earth's axis tilt to the formation of the Indo-European languages first words and the misunderstood part of white race history This book reveals the unknown part of Indo-European history in Asia which is very wrongly taught today The evolution of European languages is corrected based on very logical and well documented bases It is a book that requires intelligence and great curiosity as well as the ability to concentrate because many lexicons are found throughout the book Any intelligent person will have a very different understanding of earth's history and reason for climate change after reading this book The book is extremely informative in many fields and the writer expects no mercy from the people who can prove him wrong Try it
