Jane Pentty, 2019-08-19 Whether it is the effects of climate change the avalanche of electronic and plastic waste or the substandard living and working conditions of billions of our fellow global citizens our ability to deal with unsustainability will define the twenty first century Given that most consumption is mediated through products and services the critical question for designers is How can we radically reshape these into tools for sustainable living As a guide and reference text Product Design and Sustainability provides design students practitioners and educators with the breadth and depth needed to integrate the most appropriate sustainable strategies into their practice It establishes the principles that underpin sustainability and introduces a diverse range of social economic and environmental design responses and tools available to designers The numerous real world examples illustrate how these strategies play out in different product sectors and reinforce the view that sustainability is the most positive opportunity and creative challenge facing designers today This book delivers a comprehensive guide to the principles of sustainability and how they apply to product design that can readily be integrated into curricula and design practice reveals many of the issues specific product sectors are facing and provides the depth and breadth needed for formulating and developing sustainable design strategies to address these issues empowers and inspires designers to engage with sustainability through its many examples and insightful interviews with practitioners is fully illustrated with over 300 photographs graphs and diagrams and supported by chapter summaries annotated further reading suggestions and a glossary *Library Hotline* ,2002 PCS View ,2001-03 **Within the Circle** Arne Dahl, 2025-02-11 This new and ingenious pulse pounding thriller from legendary Swedish crime author Arne Dahl tracks a string of bombings in Stockholm that are seemingly connected to the climate debate and a secret organization perfect for fans of Jo Nesbo and Lars Kepler When a steel industry executive is found dead in a burning BMW the death is quickly dismissed as a tragic accident After another nearly identical accident occurs criminal inspector Eva Nyman receives a letter that reveals details of an upcoming and much more vicious attack leading her to believe that these are a deliberate series of murders possibly even a case of climate terrorism In the letter Eva recognizes a phrase that was often used by her disgraced former boss Lukas Frisell who went off the grid after botching a kidnapping investigation Eva cannot believe that Frisell is

responsible for the murders but evidence keeps pointing toward him And as her new team NOVA races to uncover the murderer before more people die Eva is reluctant to disclose her suspicions regarding her old boss As further bombings targeting public places begin countless lives rely on NOVA s ability to find out who s behind it all and put a stop to the terror The killer is out there somewhere but all they have to go on is a cryptic letter and a strange symbol that keeps appearing everywhere they turn a circle within a circle Who is hiding within the circle
