

Abortion: Pro life versus Pro choice

The topic of abortion has always been a controversial topic. Does the embryo have the same rights as other human beings? The same argument can be applied to a chicken in its egg. Does the chick deserve a chance at life because everytime an egg is taken for consumption it is preventing a life. There are hundreds of articles, books, newspapers, blogs and other forms of mass media communications on each side pro life and pro choice. The point of this article is to take a non bias standpoint and explore the scientific and moral decisions on abortion to decipher which argument is more logical than the others.

For pro choice one of the main arguments is that if the baby is unwanted or unplanned for then it should be up to the mother whether or not she wants to give birth or not. This maybe due to financial situations, or maybe she just isn't ready "there was nothing I could do to stop her from going through with an abortion; it was her legal right" (The atlantic). The story behind this was two people were in a relationship, Tony and Jenny were in a relationship but not in love. Jenny one day messaged Tony and said that she was pregnant and that she wanted an abortion because she was not in love with Tony and was not ready to have a baby with somebody that she was not in love with. Tony was not able to have a say in the matter because she was the one carrying the baby and it was her right to have the abortion or not. This is a flaw in the argument of pro choice because if people are looking for true equality for all then in situations like this it is vital to make the decision equal between the two individuals. And if there can't be a verdict or middle ground reached then it can be discussed between the two parties families or taken to court in order to reach this middle ground. There are other instances where the parents know about possible birth defects and still proceed to not have an abortion this is the other half of the pro choice in which they do decide to keep the baby although it could mean a life of pain and hospitalizations. And if the parents do decide to keep the baby that puts the parents and the hospitals into a financial predicament where the parents can't keep up with the bills and can't pay the hospital for the birth defects that were known about and ignored by the parents. These complications are often caused by the women not taking proper care of themselves while being pregnant not allowing the child to grow and develop normally
