Teaching Mathematics Through Problem-Solving Akihiko Takahashi, 2021-03-31 This engaging book offers an in depth introduction to teaching mathematics through problem solving providing lessons and techniques that can be used in classrooms for both primary and lower secondary grades Based on the innovative and successful Japanese approaches of Teaching Through Problem solving TTP and Collaborative Lesson Research CLR renowned mathematics education scholar Akihiko Takahashi demonstrates how these teaching methods can be successfully adapted in schools outside of Japan TTP encourages students to try and solve a problem independently rather than relying on the format

of lectures and walkthroughs provided in classrooms across the world Teaching Mathematics Through Problem Solving gives educators the tools to restructure their lesson and curriculum design to make creative and adaptive problem solving the main way students learn new procedures Takahashi showcases TTP lessons for elementary and secondary classrooms showing how teachers can create their own TTP lessons and units using techniques adapted from Japanese educators through CLR Examples are discussed in relation to the Common Core State Standards though the methods and lessons offered can be used in any country Teaching Mathematics Through Problem Solving offers an innovative new approach to teaching mathematics written by a leading expert in Japanese mathematics education suitable for pre service and in service primary and secondary math educators

Mathematics, the Common Core, and RTI Dolores Burton, John Kappenberg, 2013-09-12 Don't let the revolution in math education pass your teachers by By now most teachers have a shelf full of books articles and reports on the Common Core and RTI But where's the resource that addresses how the two fit together Individually the Common Core and RTI are formidable enough Together they create a perfect storm of challenges with most teachers left wondering where to turn first Finally here's a guide that distills the central elements of the Common Core and RTI into a single manageable resource that provides strategies for serving all students You will find Real world scenarios based on actual school based issues Multiple classroom ready work samples Content area applications of RTI including math vocabulary and literacy A focus on instructional technology with references to online resources in every chapter Preparation for future developments in state and national educational policy With additional guidance on students with special needs behavioral issues English language learners and parent involvement this all in one resource gives your teachers a distinct advantage in providing the superior math instruction all students deserve Burton and Kappenberg have done a great service to teachers by combining Common Core and RTI into one easy to use text Deb Bible RTI Interventionist Dundee Highlands School West Dundee IL Anyone involved in the development of mathematic teachers and who is currently a mathematics teacher will find this book to be a resource to effectively unify instructional strategies to teach all students Satasha Green Dean of Education New York Institute of Technology , *Nurturing Your Child's Math and Literacy in Pre-K-Fifth Grade* Mary Mueller, Alisa Hindin, 2016-11-23 With recent changes in the curriculum and standards in language arts and mathematics parents often are challenged to find ways to help their children be successful in their learning endeavors While parents want to be involved in their children's education they are often unsure of their role in their children's learning and the best ways to help their children to succeed academically Moreover with the changes in how math and literacy are being taught parents often struggle with helping even first grade children with their homework In this book we set out to alleviate this struggle by offering parents a resource they can use to navigate their child's education communicate with teachers and support their children in learning mathematics and literacy After providing an overview of the current educational climate and tips for communication with teachers we share strategies and suggestions parents can use to assist their children in language arts

and mathematics We provide detailed descriptions of activities games books and conversations that connect with what children will be learning at each grade level **Bridging Technology and Literacy** Amy Hutchison, Jamie Colwell, 2015-06-18 This book provides a practical understanding of digital literacy and information on integrating digital technology into English Language Arts and literacy instruction at the K 6 grade levels Cross disciplinary connections are also provided to bridge literacy and language arts and other content areas for a more integrated approach to literacy instruction This text not only introduces readers to various types of digital tools and resources but also provides practical approaches for using digital tools in instruction to help students read and write multi modal digital texts Each chapter contains key elements that prompt brainstorming about digital tools connections to the Common Core State Standards in Language Arts and resources for teachers to plan instruction that incorporates digital tools Comprehensive sample lesson plans that are aligned to the Common Core State Standards and English Language Proficiency Standards are provided throughout the text Information about digital citizenship digital copyright lesson planning and long range planning is also provided **Math Instruction for Students with Learning Problems** Susan Perry Gurganus, 2017-02-24 Math Instruction for Students with Learning Problems Second Edition provides a research based approach to mathematics instruction designed to build confidence and competence in pre and in service PreK 12 teachers This core textbook addresses teacher and student attitudes toward mathematics as well as language issues specific mathematics disabilities prior experiences and cognitive and metacognitive factors The material is rich with opportunities for class activities and field extensions and the second edition has been fully updated to reference both NCTM and CCSSM standards throughout the text and includes an entirely new chapter on measurement and data analysis **50 Leveled Math Problems Level 5** Anne Collins, 2012-04-01 It includes 50 leveled math problems 150 problems total an overview of the problem solving process and ideas for formative assessment of students problem solving abilities It also includes 50 mini lessons and a student activity sheet featuring a problem tiered at three levels plus digital resources that include electronic versions of activity sheets This resource is aligned to the interdisciplinary themes from the Partnership for 21st Century Skills and supports core concepts of STEM instruction **Using Children's Literature to Teach Problem Solving in Math** Jeanne White, 2016-08-05 Learn how children's literature can help K 5 students see the real life applications of mathematical concepts This user friendly book shows how to use stories to engage students in building critical reasoning abstract thinking and communication skills all while helping students understand the relevance of math in their everyday lives Each chapter is dedicated to one of the eight Standards for Mathematical Practice and offers examples of children's literature that can be used to help students develop that practice You'll find out how to Encourage students to persevere in solving mathematical problems and use multiple approaches to find the answer Help students reason abstractly with the aid of concrete objects and visuals Guide students in constructing arguments to explain their reasoning and engage in critical discussion with their peers Teach students to recognize mathematical patterns and use

them to solve problems efficiently And more The book offers activities for beginners as well as for more advanced problem solvers Each chapter also provides guidance for ELLs and students with special needs so no matter your classroom environment you ll be able to use these strategies to make math class more dynamic engaging and fun *Teacher as Activator of Learning* Gayle H. Gregory,2016-02-11 Flip the Switch How to Get Students Into Learning Mode Now In his well known meta analysis John Hattie suggests that facilitating learning is not as effective or powerful as activating learning In this book Gayle Gregory shows you how to facilitate better and deeper learning Packed with practical strategies that teachers can use every day to increase student achievement you will also discover what educational neuroscience says about nurturing a growth mindset and creating classrooms that support and encourage students to take risks and fail forward Learn how to Foster student dialogue and thinking Orchestrate productive reflective flexible student groups Develop respectful learning relationships between and among students and teachers Teacher competencies and clarity related to student goals and success criteria with quality feedback are essential for student success This resource will enrich learning environments for students and increase the chance of success for all In going from teachers as fount of knowledge to teacher as facilitator the field has overcorrected Gayle Gregory corrects all that with a comprehensive and deep portrayal of the need for teachers to be activators of learning in partnership with students Based on equal measure of research and practice Gregory gives is a compelling set of ideas and tools to maximize student learning and engagement Read it and hit the ground running Michael Fullan Professor Emeritus OISE University of Toronto **STEM Road Map** Carla C. Johnson,Erin E. Peters-Burton,Tamara J. Moore,2015-07-03 STEM Road Map A Framework for Integrated STEM Education is the first resource to offer an integrated STEM curricula encompassing the entire K 12 spectrum with complete grade level learning based on a spiraled approach to building conceptual understanding A team of over thirty STEM education professionals from across the U S collaborated on the important work of mapping out the Common Core standards in mathematics and English language arts the Next Generation Science Standards performance expectations and the Framework for 21st Century Learning into a coordinated integrated STEM education curriculum map The book is structured in three main parts Conceptualizing STEM STEM Curriculum Maps and Building Capacity for STEM designed to build common understandings of integrated STEM provide rich curriculum maps for implementing integrated STEM at the classroom level and supports to enable systemic transformation to an integrated STEM approach The STEM Road Map places the power into educators hands to implement integrated STEM learning within their classrooms without the need for extensive resources making it a reality for all students **Rethinking Disability and Mathematics** Rachel Lambert,2024-04-15 Every child has a right to make sense of math and to use math to make sense of their worlds Despite their gifts students with disabilities are often viewed from a deficit standpoint in mathematics classrooms These students are often conceptualized as needing to be fixed or remediated Rethinking Disability and Mathematics argues that mathematics should be a transformative space for these

students a place where they can discover their power and potential and be appreciated for their many strengths Author Rachel Lambert introduces Universal Design for Learning for Math UDL Math a way to design math classrooms that empowers disabled and neurodiverse students to engage in mathematics in ways that lead to meaningful and joyful math learning The book showcases how UDL Math can open up mathematics classrooms so that they provide access to meaningful understanding and an identity as a math learner to a wider range of students Weaved throughout the book are the voices of neurodiverse learners telling their own stories of math learning Through stories of real teachers recognizing the barriers in their own math classrooms and redesigning to increase access the book Reframes students with disabilities from a deficit to an asset perspective paving the way for trusting their mathematical thinking Offers equitable math instruction for all learners including those with disabilities neurodiverse students and or multilingual learners Applies UDL to the math classroom providing practical tips and techniques to support students cognitive affective and strategic development Immerses readers in math classrooms where all students are engaged in meaningful mathematics from special education day classes to inclusive general education classrooms from grades K 8 Integrates research on mathematical learning including critical math content such as developing number sense and place value fluency with math facts and operations and understanding fractions and algebraic thinking Explores critical issues such as writing IEP goals in math This book is designed for all math educators both those trained as general education teachers and those trained as special education teachers The UDL Math approach is adapted to work for all learners because everyone varies in how they perceive the world and in how they approach mathematical problem solving When we rethink mathematics to include multiple ways of being a math learner we make math accessible and engaging for a wider group of learners Opening the Common Core Carol Corbett Burris, Delia T. Garrity, 2012-03-13 The CCSS open the door to success Do you wish you could leverage the Common Core State Standards CCSS to equip all students not just high achievers with the higher level thinking skills they need You can and this book will show you how The authors helped lead their district Rockville Centre in Long Island New York in closing achievement gaps and increasing the number of students who completed four year college programs The results of their efforts show a remarkable increase in both excellence and equity in English language arts math and science This book outlines the authors research based ACES framework for instructional improvement to help achieve similar results Acceleration rather than remediation Critical thinking Equity in education for all students Support Educators will find practical strategies that are applied and developed in model lessons linked to the CCSS and KSUS Knowledge and Skills for University Success standards Understanding why we need to prepare all children to be college and career ready is easy Making it happen is not Learn from those who have succeeded and your students will reap the rewards
