Readworks Answers From The Great Depression:

An Analysis of Eric Hoffer's The True Believer Jonah S. Rubin, 2017-07-05 Eric Hoffer's *The True Believer* Thoughts on the Nature of Mass Movements is one of the most widely read works of social psychology written in the 20th century. It exemplifies the powers of creative thinking and critical analysis at their best, providing an insight into two crucial elements of critical thinking. Hoffer is likely to go down in history as one of America's great creative thinkers, a writer not bound by standard frameworks of thinking or academic conventions, willing to beat his own path in framing the best possible answers to the questions he investigated. An impoverished, largely unschooled manual laborer who had survived the worst effects of the Great Depression in the United States, Hoffer was a passionate autodidact whose philosophical and psychological education came from omnivorous reading. Working without the help of any mentors, he forged the fearsomely creative and individual approach to problems demonstrated in *The True Believer*. The book, which earned him his reputation, examines the different phenomena of fanaticism, religious or political, and applies Hoffer's analytical skills to reveal that deep down, all true believers display the same needs and tendencies, whatever their final choice of belief. Incisive and persuasive, it remains a classic.

After Winter John Edgar Tidwell, Steven C. Tracy, 2009-02-02 John Edgar Tidwell and Steven C. Tracy have brought together for the first time a book-length collection of critical and theoretical writings about Sterling A. Brown that recovers and reasserts his continuing importance for a contemporary audience. Exploring new directions in the study of Brown's life and work, *After Winter* includes new and previously published essays that sum up contemporary approaches to Brown's multifaceted works, interviews with Brown's acquaintances and contemporaries, an up-to-date annotated bibliography, and a discography of source material that innovatively extends the study and teaching of Brown's acclaimed poetry, especially his *Southern Road*, focusing on recordings of folk materials relevant to the subject matter, style, and meaning of individual poems from his oeuvre.

Hanes,Richard Clay Hanes,2003 Presents an overview of the Great Depression through the words and writings of the time more than twenty five excerpts from speeches poems fiction and non fiction works **Reflections on the Great Depression** Randall E. Parker,2003-01-01 This is an enjoyable and immensely readable book which combines in interview format reflections by prominent economists on contemporary and subsequent explanations of the Great Depression with what Bernanke in his foreword refers to as highbrow gossip concerning the lives and experiences of those selected economists who lived through the era W R Garside Australian Economic History Review The tone of the book is broad and it moves fluidly between discussion of grand intellectual debates about what mattered personal thoughts of the interviewer and his subjects formative experiences events and gossip Christopher M Meissner The International History Review This volume is built around transcripts of interviews conducted in 1997 and 1998 with 11 noteworthy economists who had been graduate students in the 1930s They were invited

to reflect on how the Great Depression affected them both personally and professionally As Ben S Bernanke remarks in the foreword this is first rate highbrow gossip The result is both instructive and entertaining William J Barber Journal of Economic History The interviews with famous senior economists contained in this enjoyable book achieve two important and quite distinct goals First they provide invaluable insights into the history of theorizing about the Depression In these conversations we see the struggles of the brightest young economists of their generation to reconcile old paradigms of the efficiency and optimality of free markets with the hard facts of mass unemployment and economic collapse they saw around them in the 1930s In their attempts to find new answers we see the roots of current ideas and debates in economics These interviews do an excellent job of recapturing the sense of uncertainty the feeling of grappling with an intractable puzzle that almost every one of these economists experienced The second achievement of these interviews is to provide well first rate highbrow gossip The interviewees are outstanding economists but they are also an exceptional group of people They hail from around the world from a variety of cultural and socioeconomic backgrounds Each in one way or the other found his or her way to professional prominence often in the face of substantial adversity From the foreword by Ben S Bernanke Princeton University US It is an accepted truism that the Great Depression did more for the development of modern economics than any other single event Some of the greatest economists of the twentieth century were inspired to go into the field as a direct result of their experiences during this period This book explores the most prominent economic explanations of the Great Depression and how it affected the lives experiences and subsequent thinking of economists who lived through that era Presented in interview format this collection of conversations with Moses Abramovitz Morris Adelman Milton Friedman Albert Hart Charles Kindleberger Wassily Leontief Paul Samuelson Anna Schwartz James Tobin Herbert Stein and Victor Zarnowitz provides a record of their reflections on the economics of the Great Depression and on the major events which occurred during those critical years This volume is also another chapter in the legacy of the interwar generation of economists and is intended as a token of gratitude for the contributions they have made to the economics profession Randall Parker has given us a window into the lives of these gifted scholars and an important glimpse into the world that shaped them Any student or scholar of economics will find this homage to and record of the brightest voices to come out of this critical time to be indispensable
