

RECOMMENDED COMPLEMENTS

IS PREPARED WITH THE ACCOUNTANT Information Accounting for Users: Management and Financial Performance Perspectives

Management Information

Accounting information is a relatively primitive way of measuring. The measurements are reported in terms similar to those measurements of physical and non-physical quantities and limited changes reflect the economic growth without measurement of changes in value. The measurements do not take into account the changes in the input price and have been found to be of the wrong dimensions and units, the program that produces them has neglected the measurement errors and uncertainties, the measurement is misleading, incorrect, preparation of the financial statements misrepresents the value of the assets and liabilities and the value of the company and the company is not aware of the errors and uncertainties that result in a statement which depicts the company's financial position and performance and the company's management is not aware of the errors and uncertainties that result in a statement which depicts the company's financial position and performance and the company's management is not aware of the errors and uncertainties that result in a statement which depicts the company's financial position and performance.

Accounting information is not the best way to measure the company's performance and the company's management is not aware of the errors and uncertainties that result in a statement which depicts the company's financial position and performance. The company's management is not aware of the errors and uncertainties that result in a statement which depicts the company's financial position and performance. The company's management is not aware of the errors and uncertainties that result in a statement which depicts the company's financial position and performance. The company's management is not aware of the errors and uncertainties that result in a statement which depicts the company's financial position and performance.
