

QUESTION 10

The three test tubes, X, Y and Z below, contain colourless solutions. The solutions in each test tube can either be potassium iodide or sodium carbonate or magnesium sulphate. Tests are carried out to determine which test tube contains which salts.

The following tests were carried out and the observations were made:

- Barium chloride solution is added to solution X; the solution remains colourless.
- Barium chloride solution is added to Y and Z; a white precipitate is formed in both cases.
- Dilute nitric acid is added to the precipitate in solution Y; the precipitate dissolves.

(2)

10.1 Define the term *dissociation*.

10.2 Give a reason why barium chloride solution can be used as electrolyte.

(2)

10.3 Write down the name of the precipitate in test tube Z.

(1)

Use the above information to identify the solutions in each of the test tubes X, Y and Z.

10.4 Write down the LETTER that represents the test tube and next to it, the NAME of the solution and the reason for the choice.

Cases on Effective Universal Design for Learning Implementation Across Schools Fovet, Frederic, 2024-08-05 Universal Design for Learning UDL has been hailed for over a decade as a revolutionary lens that allows schools to shift their efforts to create inclusive environments from a medical model lens to a social model approach In recent years UDL has gone beyond disability and impairment and is now considered an effective tool to create inclusive classroom provisions for Indigenous students and more widely for culturally diverse learners There is now a sizable body of literature that details the benefits of implementing UDL in the K 12 sector There is however a paucity of studies and papers examining the strategic challenges of developing UDL across schools and school boards While the initial concern has been to evidence the pedagogical benefits of introducing UDL to the classroom the challenges discussed at this current stage by classroom practitioners and school leaders are of a different nature they are strategic in nature and focus specifically on the organizational hurdles of scaling up initial efforts It is time for the UDL implementation drive the K 12 sector to go beyond curiosity and to explore sustainable growth and development Cases on Effective Universal Design for Learning Implementation Across Schools fills the gap that exists in the UDL literature at present It offers case studies and practical examples of the reflection which accompanies the systemic implementation of UDL on a wider scale across schools and schoolboards It examines the full spectrum of ecological repercussions this growth leads to Covering topics such as deficit model practices bilingual K 12 education and UDL implementation this case book is a dynamic resource for educators and administrators of K 12 education instructional designers curriculum developers pre service teachers teacher educators community leaders government officials researchers and academicians

Child and Adolescent Development for Educators Christi Crosby Bergin, David Allen Bergin, Sue Walker, Graham Daniel, Angela Fenton, Pearl Subban, 2018-09-01

Child and Adolescent Development for Educators covers development from early childhood through high school. This text provides authentic research based strategies and guidelines for the classroom helping future teachers to create an environment that promotes optimal development in children. The authors apply child development concepts to topics of high interest and relevance to teachers including classroom discipline, constructivism, social emotional development and many others. Child and Adolescent Development for Educators combines the core theory with practical implications for educational contexts and shows how child development links to the Australian Professional Standards for Graduate Teachers. Case studies and real world vignettes further bridge the distance between research and the classroom. Along with strong coverage of key local research such as the Longitudinal Study of Australian Children and Longitudinal Study of Indigenous children.

School Achievement and Failure in Portuguese and Spanish Speaking Countries Edgar Galindo, Adelinda A. Candeias, Heldemerina S. Pires, Miguel Ángel Carbonero, 2018-08-31 This book is devoted to an increasingly important educational problem in the modern societies: school achievement and failure. School failure is presently a problem in developed as well as in developing countries. In the Spanish and Portuguese speaking countries in Europe and Latin America, school achievement and failure is consequently an important topic of political, social and scientific discussion. The following papers revise the latest research in the field from the perspective of Psychology. *Educational Research* R. Burke Johnson, Larry B. Christensen, 2024-09-17 *Educational Research: Quantitative, Qualitative and Mixed Approaches* offers an accessible introduction to research methods. Providing an in depth understanding of research methodologies in education, this book illustrates how to read and critically evaluate published research, how to write a proposal, construct research tools and conduct empirical research using qualitative, quantitative and mixed methods research approaches. How Shanghai Does It Xiaoyan Liang, Huma Kidwai, Minxuan Zhang, Yinan Zhang, 2016-04-08 The Shanghai basic education system has garnered significant attention since its extraordinary performance in the 2009 and 2012 Programme for International Student Assessment (PISA), a global assessment of 15 year olds' educational abilities. Among the 65 participating economies in 2012, Shanghai, China, ranked first on all three major domains of PISA: i.e. mathematics, reading and science. Shanghai also stands out for having the world's highest percentage of resilient students: students from socio-economically disadvantaged backgrounds who emerge as top performers. Shanghai's PISA story has generated intense discussions and diverse speculations in the field of international educational development and numerous studies have been done in the attempt to unravel the mystery. Missing from the picture, however, is a more comprehensive, systematic, in depth and objective rendition of the policies and practices of Shanghai basic education benchmarked against others in key dimensions. This report presents an in depth examination of how Shanghai scored highest in the areas of reading, science and mathematics on PISA. It documents and benchmarks key policies in basic Shanghai education, provides evidence on the extent to which these policies have been implemented in schools and explores how these policies have affected learning outcomes. The report uses PISA

2012 data to analyze Shanghai student achievement variation and to examine the extent school variables may be associated with the variation beyond family and student background It also uses the World Bank s Systems Approach for Better Education Results SABER an existing systems diagnostic and benchmarking tool as an organizing framework and for data collection School based surveys and other existing research shed further light on educational impact and implementation While the report attempts to adopt a systems approach particular emphasis is placed on teachers education financing balancing autonomy and accountability and student assessment **SAEQ Issue 05** ,2022-03-16 Issue 05 Oct Nov Dec 2014
