Hearing Homophony Megan Kaes Long, 2020-04-28 The question of tonality's origins in music's pitch content has long vexed many scholars of music theory However tonality is not ultimately defined by pitch alone but rather by pitch's interaction with elements like rhythm meter phrase structure and form Hearing Homophony investigates

the elusive early history of tonality by examining a constellation of late Renaissance popular songs which flourished throughout Western Europe at the turn of the seventeenth century Megan Kaes Long argues that it is in these songs rather than in more ambitious secular and sacred works that the foundations of eighteenth century style are found Arguing that tonality emerges from features of modal counterpoint in particular the rhythmic phrase structural and formal processes that govern it and drawing on the arguments of theorists such as Dahlhaus Powers and Barnett she asserts that modality and tonality are different in kind and not mutually exclusive Using several hundred homophonic partsongs from Italy Germany England and France Long addresses a historical question of critical importance to music theory musicology and music performance Hearing Homophony presents not only a new model of tonality s origins but also a more comprehensive understanding of what tonality is providing novel insight into the challenging world of seventeenth century music

Music Semiotics: A Network of Significations Esti Sheinberg, 2017-07-05 United in their indebtedness to the scholarship of Raymond Monelle an international group of contributors including leading authorities on music and culture come together in this state of the art volume to investigate different ways in which music signifies Music semiotics asks what music signifies as well as how the signification process takes place Looking at the nature of musical texts and music s narrativity a number of the essays in this collection delve into the relationship between music and philosophy literature poetry folk traditions and the theatre with opera a genre that particularly lends itself to this mode of investigation Other contributions look at theories of musical markedness metaphor and irony using examples and specific musical texts to serve as case studies to validate their theoretical approaches Musical works discussed include those by Haydn Mozart Beethoven Schumann Wagner Stravinsky Bart Xenakis Kutavicius and John Adams offering stimulating discussions of music that attest to its beauty as much as to its intellectual challenge Taking Monelle s writing as a model the contributions adhere to a method of logical argumentation presented in a civilized and respectful way even and particularly when controversial issues are at stake keeping in mind that contemplating the significance of music is a way to contemplate life itself
