Authentic Writing Jeffrey Rice,2021-04-20 In typical academic circles texts must be critiqued mined for the obfuscated meanings they hide and shown to reveal larger broader meanings than what are initially evident To engage in this type of writing is to perform an authentic version of scholarship But what if a scholar chooses instead to write without critique What if they write about travelling their children food grocery shopping frozen garlic bread sandwiches condiments falafel yoga and moments that normally wouldn t be considered scholarly Can the writing still be scholarly Can scholarly writing be authentic if its topics comprise the everyday In *Authentic Writing* Jeff Rice uses this question to trace a position regarding critique the role of the scholar the role of the personal in scholarship the banal as subject matter and the idea of authenticity He explores authenticity as a writing issue a rhetorical issue a consumption issue a culture issue and an ideological issue Rather than arguing for a more authentic state or practice Rice examines the rhetorical features of authenticity in order to expand the focus of scholarship

Staging the Archive Ernst van Alphen, 2014-11-15 Dedicated to art practices that mobilize the model of the archive *Staging the Archive* demonstrates the ways in which such archival artworks probe the possibilities of what art is and what it can do Through a variety of media methodologies and perspectives the artists surveyed here also challenge the principles on which the notions of organization evidence and documentation are built The earliest examples of the modern archival artwork were made in the 1930s but only since the 1960s have artists really embraced archival principles to inform structure and shape their works This includes practices that consist of archive construction archaeological investigation record keeping and the use of archived materials but also interrogations of the principles claims and effects of the archive *Staging the Archive* shows how artists read the concept of the archive against the grain questioning not only what the archive is and can be but what materials images or ideas can be archived Ernst van Alphen examines these archival artists and artworks in detail setting them within their social political and aesthetic contexts Exploring the works of Marcel Duchamp Marcel Broodthaers Christian Boltanski Annette Messager Fiona Tan and Sophie Calle among others he reveals how modern and contemporary artists have used and contested the notion of the archive to establish new relationships to history information and data

A Narratological Approach to Lists in

Detective Fiction Sarah J. Link, 2023-07-12 This open access book examines how the form of the list features as a tool for meaning making in the genre of detective fiction from the nineteenth to the twenty first century The book analyzes how both readers and detectives rely on listing as an ordering and structuring tool and highlights the crucial role that lists assume in the reading process It extends the boundaries of an emerging field dedicated to the study of lists in literature and caters to a newly revived interest in form and New Formalist approaches in narratological research The central aim of this book is to show how detective fiction makes use of lists in order to frame various conceptions of knowledge The frames created by these lists are crucial to decoding the texts and they can be used to demonstrate how readers can be engaged in the act of detection or manipulated into accepting certain propositions in the text *The Julian Barnes Booker Prize Finalist Collection, 3-Book Bundle* Julian Barnes, 2011-12-06 Julian Barnes recipient of the 2011 Man Booker Prize is one of our most highly regarded novelists In this collection of three novels spanning his career we see the broad range of his imagination and literary skill Barnes s third published novel brought him worldwide acclaim and was shortlisted for the Booker Prize A high literary entertainment The New York Times Flaubert s Parrott is among other things a piercing glimpse at the nature of obsession and betrayal both scholarly and romantic Barnes s second shortlisted novel England England is a sly a satiric invention in which a visionary tycoon attempts to replicate a jolly old England that probably never really existed Robin Hood s men are genuinely merry and the royals all behave themselves impeccably until of course everything begins to go horribly wrong Finally Arthur George re creates late Victorian Britain in which the fates of two vastly different men become entwined one seeking vindication in a world that looks askance at his origins the other creating the world s most famous detective while keeping his own secrets **The Late Modernist Novel** Seo Hee Im, 2022-06-09 This study shows how the late modernist novel incorporated empirical structures as theme and form to expand the genre beyond the nation state

posthumanism and of critiques of anthropomorphism in the past few decades has resulted in greater attention to concrete objects in critical theories and in philosophy. This new materialism or new object philosophy marks a renewal of interest in the existence of objects. Yet while their mode of existence is independent of human cognition, it cannot erase the relation of subject to object and the foundational role of our experience of things in our mental activity. These developments have important implications for narratology. Traditional conceptions of narrative define its core components as setting, characters and plot, but nonhuman entities play a crucial role in characterizing the setting, in enabling or impeding the actions of characters, and thus in determining plot. Marie Laure Ryan and Tang Weisheng combine a theoretical approach that defines the basic narrative functions of objects with interpretive studies of narrative texts that rely more closely on ideas advanced by proponents of new object philosophy. Object Oriented Narratology opens new theoretical horizons for narratology and offers individual case studies that demonstrate the richness and diversity of the ways in which narrative both Western and non-Western deals with humans' relationships to their material environment and with the otherness of objects. 2024-25 NTA UGC-NET/JRF English Solved Papers YCT Expert Team, 2024-25 NTA UGC NET JRF English Solved Papers

Autobiographical writings have been a major cultural genre from antiquity to the present time. General questions of the literary, as e.g. the relation between literature and reality, truth and fiction, the dependency of author, narrator and figure, or issues of individual and cultural styles etc. can be studied preeminently in the autobiographical genre. Yet the tradition of life writing has in the course of literary history developed manifold types and forms. Especially in the globalized age where the media and other technological cultural factors contribute to a rapid transformation of lifestyles, autobiographical writing has maintained even enhanced its popularity and importance. By conceiving autobiography in a wide sense that includes memoirs, diaries, self-portraits and autofiction, as well as media transformations of the genre, this three-volume handbook offers a comprehensive survey of theoretical approaches, systematic aspects and historical developments in an international and interdisciplinary perspective. While autobiography is usually considered to be a European tradition, special emphasis is placed on the modes of self-representation in non-Western cultures and on inter- and transcultural perspectives of the genre. The individual contributions are closely interconnected by a system of cross-references. The handbook addresses scholars of cultural and literary studies, students as well as non-academic readers.
