itself What would give legitimacy to an independent discipline called Military Science is a comprehensive i e not only military strategic organic collection of primarily intellectual capabilities safeguarding the secure long term survival of the state and its people thus contributing to the benefit of society In order to increase the publication s academic value and to provide authors with an additional incentive to contribute in future the book was subjected to a peer review process *Financial Regulation in the European Union* Rainer Kattel,Jan Kregel,Mario Tonveronachi,2015-10-08 This collection offers a comparative overview of how financial regulations have evolved in various European countries since the introduction of the single European market in 1986 It includes a number of country studies which provides a narrative of the domestic financial regulatory structure at the beginning of the period as well the means by which the EU Directives have been introduced into domestic legislation and the impact on the financial structure of the economy In particular studies highlight how the discretion allowed by the Directives has been used to meet the then existing domestic conditions and financial structure as well as how they have modified that structure Countries covered are France Germany Italy Spain Estonia Hungary and Slovenia The book also contains an overview of regulatory changes in the UK and Nordic countries and in post crisis USA This comparative approach raises questions about whether past and more recent regulatory changes have in fact contributed to increase financial stability in the EU The comparative analysis provided in this book raises questions on whether the past and more recent changes are contributing to increase the financial stability and efficiency of individual banks and national financial systems The crisis has demonstrated the drawbacks of formulating the regulatory framework on standards borrowed from the best industry practices from the large developed countries originally designed exclusively for large global banks but now applied to all financial institutions *Tainted Democracy* Zsuzsanna Szelényi,2022-11-21 Hungary once the poster child of liberal democracy is fast becoming an autocracy under Viktor Orb n After winning an absolute majority in 2010 Orb n launched a series of reforms fundamentally undermining the country s twenty year post Cold War liberal consensus For supporters and foes alike the rise and rise of Hungary s prime minister is a vivid example of how democracy can be subverted from within Zsuzsanna Szel nyi a leading member of Orb n s Fidesz in its early years has witnessed first hand the party s shift from liberalism to populist nationalism Offering an insider s account of Fidesz s evolution since its creation she explains how the party rose to leadership of the country under Orb n and made sweeping legal political and economic changes to solidify its grip on power from reining in the public media to slashing the number of parliamentary seats She answers a key question why has Orb n been so successful winning widespread support within Hungary and wielding considerable influence in European politics And how can Hungary s opposition party Together which she co founded in 2014 work to turn the country around Underpinned by Szel nyi s own experiences at the heart of Hungarian politics Tainted Democracy offers accessible nuanced insights into the global rise of populist autocracy and how it can be challenged

Neighbourhood Policy and the Construction of the European External Borders Filippo Celata, Raffaella Coletti, 2015-06-11 This book looks both backward and forward with regard to the European Union's political strategies towards its neighbouring countries. By bringing together the perspectives of critical geopolitics, policy studies, and border studies, it presents a comprehensive review of the European Neighbourhood Policy and how it impacts the ongoing construction of the EU's external frontiers. Is the EU committed to promoting integration in a wider European space, or is it a fortress Europe emerging where the strengthening of internal cohesion is coupled with the militarisation of its external borders? The book aims to problematize this question by showing how the EU's external policies are based on a mixture of openness and closure, inclusion and exclusion, cooperation and securitisation. The European Neighbourhood Policy is a controversial strategy where regionalization and bordering, homogenisations and differentiations, centrifugal and centripetal forces proceed side by side in an explicit attempt to construct a selective, mobile, and fragmented border. A specific focus is devoted to the diversity of geo-strategies the EU is pursuing in its neighbouring countries and regions, macro-regional strategies, and cross-border cooperation initiatives, as well as new scales of cooperation and the role of other global players.

Fake Law The Secret Barrister, 2020-09-03 THE TOP TEN SUNDAY TIMES BESTSELLER A powerful polemic Sunday Times A compelling eye-opening read Daily Express Did an illegal immigrant avoid deportation because he had a cat? Is the law on the side of the burglar who enters your home? Are unelected judges enemies of the people? Most of us think the law is only relevant to criminals, if we even think of it at all. But the law touches every area of our lives, from intimate family matters to the biggest issues in our society. Our unfamiliarity is dangerous because it makes us vulnerable to media spin, political lies, and the kind of misinformation that frequently comes from loud-mouthed amateurs and those with vested interests. This fake law allows the powerful and the ignorant to corrupt justice without our knowledge; worse, we risk letting them make us complicit. Thankfully, the Secret Barrister is back to reveal the stupidity, malice, and incompetence behind many of the biggest legal stories of recent years. In *Fake Law*, the Secret Barrister debunks the lies and builds a defence against the abuse of our law, our rights, and our democracy that is as entertaining as it is vital.
