It might be argued that the report's findings are biased because the study's participants were not randomly selected. The study did not include a control group who were not exposed to the media coverage, but instead included a group of participants who were exposed to the media coverage. This is a limitation of the study.

11. *Journal of the American Medical Association*, 277: 1005-1006, 1997.

These findings suggest that there will be a significant positive relationship between the

It should be noted that the results of the regression analysis are consistent with the findings of the literature.
