**Contractor's Guide to Quickbooks Pro 2002** Karen Mitchell, Craig Savage, Jim Erwin, 2002

According to a recent national survey, more construction contractors use QuickBooks Pro and QuickBooks than all other accounting programs combined. And for good reason: QuickBooks Pro excels at all the routine paperwork in a construction office: writing checks, keeping track of your bank balance, sending out invoices and statements, creating up to the minute profit and loss statements for the month, year, or by job; writing payroll checks; paying suppliers and subcontractors; tracking job costs; comparing estimated and actual costs for each job; and much more. But there's a lot to learn in QuickBooks Pro. And converting to a new accounting system can be a complex and confusing task, even if you have a strong background in accounting and plenty of time to install the new system.
