- 1.1. The graphs below show the relationship between the net force and the acceleration for two masses A and B.

Select one of the following statements is true?

- Line A represents a smaller mass than line B.
 - Line B represents a smaller mass than line A.
 - Line A represents a larger mass than line B.
 - Line B represents a larger mass than line A.
- In which of the following cases would the resultant force acting on an object be equal to 0 N?

 - When a car is moving with a constant velocity.
 - When a car is moving with a constant acceleration.
 - When a car is moving with a constant velocity and a constant acceleration.
 - When a car is moving with a constant velocity and a constant deceleration.
- Select all the statements below that describe the resultant?

 - An object moving with a constant velocity and a constant acceleration.
 - An object moving with a constant velocity and a constant deceleration.
 - An object moving with a constant velocity and a constant acceleration and a constant deceleration.
 - An object moving with a constant velocity and a constant deceleration and a constant acceleration.
- The inertia of an object...

 - Is directly proportional to its mass.
 - Is inversely proportional to its mass.
 - Is directly proportional to its weight.
 - Is inversely proportional to its weight.
- An object has a weight W_1 on Earth. What distance, in terms of the radius of the Earth (r), will the object be if the weight is $\frac{1}{16}$ of this weight ($\frac{W_1}{16}$) on the

surface of the Earth?

- $\frac{r}{4}$
 - $\frac{r}{2}$
 - $\frac{r}{16}$
 - $\frac{r}{4}$
- A box is pulled forward with a force of 100 N but does not move. A possible reason for this is that:

 - The applied force is less than the weight.
 - The applied force is equal to the weight.
 - The applied force is less than the weight.
 - The applied force is equal to the weight.

QUESTION 2

The grade 11 learners learn that there is more than one way to determine the resultant of two vectors. One way is the component method. They want to use this method to find the resultant of the forces acting on a bucket by the ropes from which the bucket is suspended. The bucket is stationary.

- The bucket is stationary.
- The tension in rope P is 100 N at an angle of 30° to the vertical and the tension in Q is 100 N at 45° to the vertical.

Calculate the RESULTANT of the

- Net force acting on the bucket.
 - The two ropes from the bucket.
 - Resultant of the horizontal components.
 - Resultant of the vertical components.
 - Net force acting on the bucket.
- Calculate the tension in the ropes.

Ploughshares and Swords Jayita Sarkar, 2022-07-15 India's nuclear program is often misunderstood as an inward looking endeavor of secretive technocrats In Ploughshares and Swords Jayita Sarkar challenges this received wisdom narrating a global story of India's nuclear program during its first forty years The book foregrounds the program's civilian and military features by probing its close relationship with the space program Through nuclear and space technologies India's leaders served the technopolitical aims of economic modernity and the geopolitical goals of deterring adversaries The politically savvy transnationally connected scientists and engineers who steered the program obtained technologies materials and information through a variety of state and nonstate actors from Europe and North America including both superpowers They thus maneuvered around Cold War politics and the choke points of the nonproliferation regime Hyperdiversification increased choices for the leaders of the nuclear program but reduced democratic accountability at home The nuclear program became a consensus enforcing device in the name of the nation Ploughshares and Swords is a provocative new history with global implications It shows how geopolitical and technopolitical visions influence decisions about the nation after decolonization Thanks to generous funding from the Swiss National Science Foundation the ebook editions of this book are available as Open Access volumes from Cornell Open cornellpress.cornell.edu/cornell-open and other repositories

Federal Register, 2013-09 **Redefining Geek** Cassidy Puckett, 2022-04-20 A surprising and deeply researched look at how everyone can develop tech fluency by focusing on five easily developed learning habits Picture a typical computer geek Likely white male and someone you'd say has a natural instinct for technology Yet after six years teaching technology classes to first generation low income middle school students in Oakland California Cassidy Puckett has seen firsthand that being good with technology is not something people are born with it's something they learn In Redefining Geek she overturns the stereotypes around the digitally savvy and identifies the habits that can help everyone cultivate their inner geek Drawing on observations and interviews with a diverse group of students around the country Puckett zeroes in on five technology learning habits that enable tech savvy teens to learn new technologies a willingness to try and fail management of frustration and boredom use of models and the abilities to use design logic and identify efficiencies In Redefining Geek she shows how to

measure and build these habits and she demonstrates how many teens historically marginalized in STEM are already using these habits and would benefit from recognition for their talent access to further learning opportunities and support in career pathways She argues that if we can develop recognize and reward these technological learning habits in all kids especially girls and historically marginalized racial and ethnic groups we can address many educational inequities and disparities in STEM Revealing how being good with technology is not about natural ability but habit and persistence Redefining Geek speaks to the ongoing conversation on equity in technology education and argues for a more inclusive technology learning experience for all students *Captive Audience* Catherine Gidney,2019-04-02 White Spot a popular BC restaurant chain solicits hamburger concepts from third and fourth grade students and one of the student s ideas becomes a feature on the kids menu Home Depot donates playground equipment to an elementary school and the ribbon cutting ceremony culminates in a community swathed in corporate swag temporary tattoos and a new Home Depot song written by a teacher and sung by the children Kindergarten students return home with a school district prescribed dental hygiene flyer featuring a maze leading to a tube of Crest toothpaste Schools receive five cents for each flyer handed to a student While commercialism has existed in our schools for over a century the corporate invasion of our schools reached unprecedented heights in the 1990s and 2000s after two decades of federal funding cuts and an increasing tendency to apply business models to the education system Constant cutbacks have left school trustees administrators teachers and parents with difficult decisions about how to finance programs and support students Meanwhile studies on the impact of advertising and consumer culture on children make clear that the effects are harmful both to the individual child and the broader culture *Captive Audience* explores this compelling history of branding the classroom in Canada Official Gazette Philippines,2013
