Parliament, 1921 Report of the Dominion fishery commission on the fisheries of the province of Ontario 1893 issued as vol 26 no 7 supplement **Creation: "Behold, it was very good."** Richard Schaefer, 2019-10-28 Author Richard A Schaefer was a lifelong communicator fascinated by stories and like any good journalist dug for the facts and verified sources exploring nagging questions such as Is creation or evolution more credible based on science and expert opinions This book truly represented a personal passion of looking at all sides of the CREATION vs EVOLUTION issue He called on many experts and theorists including Charles Darwin himself Surprisingly Darwin was far more skeptical of his own theories than are many PhDs today and admitted to significant holes in his logic Read for yourself as great thinkers explore the pros and cons of both theories and their variants **The Rise of English** Rosemary Salomone, Rosemary C. Salomone, 2022 A sweeping account of the global rise of English and the high stakes politics of language Spoken by a quarter of the world's population English is today's lingua franca its common tongue The language of business popular media and international politics English has become commodified for its economic value and increasingly detached from any particular nation This meteoric rise of English has many obvious benefits to communication Tourists can travel abroad with greater ease Political leaders can directly engage their counterparts Researchers can collaborate with foreign colleagues Business interests can flourish in the global economy But the rise of English has very real downsides as well In Europe imperatives of political integration and job mobility compete with pride in national language and heritage In the United States and England English isolates us from the cultural and economic benefits of speaking other languages And in countries like India South Africa Morocco and Rwanda it has stratified society along lines of English proficiency In The Rise of English Rosemary Salomone offers a commanding view of the unprecedented spread of English and the far reaching effects it has on global and local politics economics media education and business From the inner workings of the European Union to linguistic battles over influence in Africa Salomone draws on a wealth of research to tell the complex story of English and ultimately to argue for English not as a force for domination but as a core component of multilingualism and the transcendence of linguistic and cultural borders Complex Interventions in Health David A. Richards, Ingalill Rahm Hallberg, 2015-04-17 Health and human services currently face a series of challenges such as aging populations chronic diseases and new endemics that require highly complex responses and take place in multiple care environments including acute medicine chronic care facilities and the community Accordingly most modern health care interventions are now seen as complex interventions activities that contain a number of component parts with the potential for interactions between them which when applied to the intended target population produce a range of possible and variable

outcomes This in turn requires methodological developments that also take into account changing values and attitudes related to the situation of patients receiving health care The first book to place complex interventions within a coherent system of research enquiry this work is designed to help researchers understand the research processes involved at each stage of developing testing evaluating and implementing complex interventions and assist them to integrate methodological activities to produce secure evidence based health care interventions It begins with conceptual chapters which set out the complex interventions framework discuss the interrelation between knowledge development and evidence and explore how mixed methods research contributes to improved health Structured around the influential UK Medical Research Council guidance for use of complex interventions four sections each comprised of bite sized chapters written by multidisciplinary experts in the area focus on Developing complex interventions Assessing the feasibility of complex interventions and piloting them Evaluating complex interventions Implementing complex interventions Accessible to students and researchers grappling with complex interventions each substantive chapter includes an introduction bulleted learning objectives clinical examples a summary and further reading The perspectives of various stakeholders including patients families and professionals are discussed throughout as are the economic and ethical implications of methods A vital companion for health research this book is suitable for readers from multidisciplinary disciplines such as medical nursing public health health services research human services and allied healthcare backgrounds
