The Undercover Economist Strikes Back Tim Harford, 2014-01-16 A provocative and lively exploration of the increasingly important world of macroeconomics by the

author of the bestselling *The Undercover Economist* Thanks to the worldwide financial upheaval economics is no longer a topic we can ignore From politicians to hedge fund managers to middle class IRA holders everyone must pay attention to how and why the global economy works the way it does Enter Financial Times columnist and bestselling author Tim Harford In this new book that demystifies macroeconomics Harford strips away the spin the hype and the jargon to reveal the truth about how the world's economy actually works With the wit of a raconteur and the clear grasp of an expert Harford explains what's really happening beyond today's headlines why all of us should care and what we can do about it to understand it better

The Complacent Class Tyler Cowen, 2017-02-28 A Wall Street Journal and Washington Post Bestseller Tyler Cowen's blog *Marginal Revolution* is the first thing I read every morning And his brilliant new book *The Complacent Class* has been on my nightstand after I devoured it in one sitting I am at round the clock Cowen saturation right now Malcolm Gladwell Since Alexis de Tocqueville restlessness has been accepted as a signature American trait Our willingness to move take risks and adapt to change have produced a dynamic economy and a tradition of innovation from Ben Franklin to Steve Jobs The problem according to legendary blogger economist and best selling author Tyler Cowen is that Americans today have broken from this tradition we're working harder than ever to avoid change We're moving residences less marrying people more like ourselves and choosing our music and our mates based on algorithms that wall us off from anything that might be too new or too different Match.com matches us in love Spotify and Pandora match us in music Facebook matches us to just about everything else Of course this matching culture brings tremendous positives music we like partners who make us happy neighbors who want the same things We're more comfortable But according to Cowen there are significant collateral downsides attending this comfort among them heightened inequality and segregation and decreased incentives to innovate and create *The Complacent Class* argues that this cannot go on forever We are postponing change due to our nearsightedness and extreme desire for comfort but ultimately this will make change when it comes harder The forces unleashed by the Great Stagnation will eventually lead to a major fiscal and budgetary crisis impossibly expensive rentals for our most attractive cities worsening of residential segregation and a decline in our work ethic The only way to avoid this difficult future is for Americans to force themselves out of their comfortable slumber to embrace their restless tradition again

China in the International Economic Order Lisa Toohey, Colin B. Picker, Jonathan Greenacre, 2015-04-16 The enormous economic power of the People's Republic of China makes it one of the most important actors in the international system Since China's accession to the World Trade Organization in 2001 all fields of international economic law have been impacted by greater Chinese participation Now just over one decade later the question remains as to whether China's unique characteristics make its engagement fundamentally different from that of other players In this volume well known scholars from outside China consider the country's approach to international economic law In addition to the usual foci of trade and investment the authors also consider monetary law finance competition law and intellectual property What emerges is a rare

portrait of China's strategy across the full spectrum of international economic activity **INTERNATIONAL JOURNAL OF INTEGRATIVE HUMANISM GHANA Vol 10. Measuring Welfare beyond Economics Claudio O. Delang, Yi Hang Yu, 2015-06-26 Dissatisfaction with the Gross Domestic Product GDP as an indicator of a country's development or a population's wellbeing led to the development of the Genuine Progress Indicator GPI The GPI is an aggregate index of over 20 economic social and environmental indicators and accounts for both the welfare benefits of economic growth and the social and environmental costs which accompany that economic growth The result is better information about the level of welfare or well being of a country's population This book measures the GPI of Hong Kong and Singapore from 1968 to 2010 It finds that for both countries economic output as measured by the GDP has grown more than welfare as measured by the GPI but important differences are also found In Hong Kong the GPI has grown for the whole period under consideration while in Singapore the GPI has stalled from 1993 This is in line with most countries and is explained by the threshold hypothesis which states that beyond a certain level of economic development the benefits of further economic growth are outweighed by even higher environmental and social costs The book argues that the growth of Hong Kong's GPI is due to its favourable relationship with China and in particular its ability to export low wage jobs and polluting industries rather than successful domestic policies A stalling or shrinking GPI calls for alternative policies than the growth economy promoted by neoclassical economists and the book explores an alternative model that of the Steady State Economy SSE OECD Economic Surveys: Costa Rica 2016 Economic Assessment

OECD, 2016-02-15 This 2016 OECD Economic Survey of Costa Rica examines recent economic developments policies and prospects The special chapters cover Inclusive growth and Productivity Outward Foreign Direct Investment in ASEAN Cassey Lee, 2017-02-15 The level of outward foreign direct investment OFDI flows from ASEAN countries has increased rapidly in past two decades This book examines OFDI trends and patterns in the ASEAN region including the impact of the ASEAN Economic Community It also provides analyses of country policies affecting OFDI and the drivers of OFDI in Indonesia Malaysia Singapore and Vietnam Myanmar is studied as an investment frontier for other ASEAN countries e The dynamic economies of Southeast Asia have historically been very large recipients of foreign direct investment FDI As global capital markets have opened up and these economies have developed their technological and commercial capabilities in more recent years Southeast Asia has emerged as a significant source of outward FDI both within the region and beyond This important volume by a group of leading regional scholars offers a timely comprehensive accessible and authoritative analysis of this phenomenon e Hal Hill H W Arndt Professor of Southeast Asian Economies Arndt Corden Department of Economics
