Quia Fault In Our Stars:

Artificially Intelligent Philosophy Chirag Sindhu,2023-12-13 This book is an experiment AI is certainly knowledgeable but it is not wise In some ways it is like a child still learning and growing But alas when it has grown like humans it will have its own perspectives biases and thought processes which will guide it This is a crucial moment however because Bard is only 210 days old In this experiment I will ask some of the most difficult questions to Bard hoping that it will answer or at least try to answer like a child without any preconceived notions of morality that will eventually change its perspectives Based on what I have seen it is a parrot a mirror of our own notions that have been placed online but when it grows we will look back as we do with our children and stand in amazement A Course of English Reading James Pycroft,1845 **A Course of English Reading, adapted to every taste and capacity, with anecdotes of men of genius** James PYCROFT,1844
