## **Diplomacy of Internationals: Power, Strategy, and Conflict in the 21st Century (2020-2025)** KHRITISH

SWARGIARY, 2025-05-08 The past half decade has borne witness to an unprecedented reshaping of global diplomacy From the corridors of Washington and Beijing to the contested straits of the South China Sea from the digital marketplaces of New Delhi to the energy pipelines feeding Europe states have leveraged every tool at their disposal economic military technological and normative to advance their national interests When I embarked on this project in early 2024 it was clear that the period 2020 2025 would prove pivotal shifting alliances emergent crises and accelerating technological change have combined to redraw the strategic map This book *The Dramatic Diplomacy of Internationals Power Strategy and Conflict in the 21st Century 2020 2025* seeks to provide both a panoramic overview and a finely grained analysis of how the world s ten most powerful nations have navigated this turbulent era Drawing on official communiqués first hand interviews with diplomats and defense planners detailed trade and investment data and contemporaneous case studies I have endeavored to chart the evolving strategies of the United States China Russia India Germany France Japan Brazil Saudi Arabia and Turkey Each chapter balances rigorous data with narrative storytelling revealing not only what decisions were made but how and why they emerged from the interplay of domestic politics regional dynamics and global imperatives In Chapter 1 we trace America s turn from the unilateralism of the late 2010s toward a more adaptive realism one that marries selective restraint with technological competition and calibrated alliance building Chapter 2 examines China s ascent in the realm of techno diplomacy where infrastructure financing digital surveillance exports and wolf warrior rhetoric coexist with an ambitious climate agenda Chapter 3 delves into Russia s hybrid toolkit energy coercion cyber proxy warfare and Arctic militarization capped by case studies of its advances in Ukraine Chapter 4 explores the European Union s struggle for strategic autonomy amidst transatlantic strains green diplomacy and migration pressures Chapter 5 spotlights the ascending roles of India Brazil and Turkey three nations forging new paradigms of digital governance environmental stewardship and regional mediation In

Chapter 6 we map the shifting rivalries of the Middle East from the fleeting Iran Saudi rapprochement to Jordan's deft peacemaking in Gaza Chapter 7 turns to Africa where the African Union's campaign for Security Council reform and the Wagner Group's mercenary ventures underscore the continent's critical stakes in great power competition The Conclusion synthesizes these threads arguing that successful diplomacy in our polycrisis age demands a blend of nimble technology adoption networked partnerships and at times even contrarian realpolitik I am deeply grateful to the many researchers regional specialists and diplomatic interlocutors who granted their time and insights My thanks also go to the institutions that provided access to archival materials and field level data Above all I hope this work serves as a guide for policymakers scholars and informed citizens alike illuminating the dramatic interplay of power and principle that shapes our shared future

Khritish Swargiary May 2025      **Military Strategy of Great Powers** Håkan Edström, Jacob Westberg, 2021-09-20 This book explores the military strategies of the five system determining great powers during the twenty first century The book's point of departure is that analyses of countries defence strategies should acknowledge that states come in various shapes and sizes and that their strategic choices are affected by their perceptions of their position in the international system and by power asymmetries between more and less resourceful states This creates a diversity in strategies that is often overlooked in theoretically oriented analyses The book examines how five major powers the United States China the United Kingdom France and Russia have adjusted their strategies to improve or maintain their relative position and to manage power asymmetries during the twenty first century It also develops and applies an analytical framework for exploring and categorising the strategies pursued by the five major powers which combines elements of structural realism with research on power transition theory and status competition The concluding chapter addresses questions related to stability and change in the present international system This book will be of interest to students of strategic studies foreign policy and International Relations      *Great Power Strategy in Asia* Jonathan Bailey, 2006-11-22 This book analyzes the enduring themes underlying the strategic struggles of the great powers in East Asia beginning with the watershed event of the 1904-5 Russo Japanese War

**Strategy** Hal Brands, 2023-05-02 First published by Princeton in 1943 the collection of essays that constituted *Makers of Modern Strategy* has largely held the field as the key book that studied the means and ends of military power and thought and the historical figures that shaped that history The books in two editions have long been a staple of Princeton's backlist in international politics and strategic studies The first edition edited by Edward Mead Earle and subtitled *Military Thought from Machiavelli to Hitler* emerged out of a seminar of foreign policy and security experts organized between Princeton and the Institute of Advanced Study in reaction to World War II as a global conflict The subsequent edition edited by Peter Paret then at Stanford University was prepared in the early 1980s and subtitled *From Machiavelli to the Nuclear Age* In that edition three essays were reprinted from the earlier book four others were revised and the remainder twenty-two essays were wholly new to reflect the updates in the field and also how the global political context had changed The two books together are regarded as the founding and leading text in military and strategic studies containing influential essays by many of the best known scholars of the subject The ambition of the new volume is to commission an entirely new edition of this classic reference work with 37 chapters organized into 5 sections covering key military leaders and the most important elements of strategic thinking since Thucydides and Sun Tzu The field of strategic and military history has witnessed an intellectual renaissance in recent decades as the number of strategic challenges faced by the world has grown enormously International politics has also changed The Cold War ended and the Soviet Union disappeared The United States entered a period of unipolarity only to see it challenged by the rise of new powers China in particular Terrorism civil wars so-called rogue states insurgency and counter insurgency and cybersecurity all joined a growing list of strategic concerns New technologies promise to upend our understanding of conflict Furthermore scholars have learned more about earlier periods from the classic thinkers of strategy to the struggles of great power war to the dynamics of world politics during the Cold War Finally scholarship on international politics war and peace in the 20th century and after has become increasingly internationalized with the opening of new archives and the incorporation of new perspectives The aim of this volume is to serve as an overview and stimulant to research in this field one that encompasses the broader definitions of strategy in current research reflects the current state of world politics and also takes a more global and less Western perspective Publisher's description
