

Partner ACS Fast Start Guide

To pick up a call

Pick up the handset of the blinking green light coming through on the "Line" buttons on your phone. You will know if it's an internal or outside call by what the display on your telephone says.

To place a call on hold

With the caller on the phone, just press the red hold button. You will be able to distinguish between what calls are holding by the seeing the steady flashing green light on your line buttons. If you're on the main operator phone, you will see steady flashing green lights on the buttons labeled, "line 1, line 2, etc..".

To transfer a call to an extension

With the caller on the phone, push the Transfer button on your telephone and dial the extension. You can either announce who the caller is to that extension or just send it straight through.

- a. To send it straight through, simply hang up after you have dialed the extension number.
- b. If you want to announce to the party who the caller is, just wait for the party to pick up, announce who the caller is and hang up. The caller will be immediately transferred.

To transfer a call to voice mail

If you want to transfer a call straight to someone's voice mail without the caller speaking to the party, just simply push the VM Trans button, dial the extension and hang up.
