Manual of British Rural Sports ... Stonehenge (pseud. [i.e. John Henry Walsh.]),1871 *Backpacker* ,2001-03

Backpacker brings the outdoors straight to the reader's doorstep inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure Backpacker is the world's first GPS enabled magazine and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature, and product innovation, has become the gold standard against which all other outdoor industry awards are measured. Basics Urban Analysis Gerrit Schwalbach,2017-05-22 Basics

Urban Analysis is a new addition to the module on city planning. Building on the elements of cities as described in the volume Basics Urban Building Blocks, it provides techniques for analyzing cities. As a basis for city planning and architectural design work, a solid understanding of the existing and surrounding urban structures is indispensable. This volume not only explains the possible approaches, it also describes in practical terms how to implement those approaches in the areas analyzed and how to evaluate the data one has collected. **Forensic Psychology of Spousal Violence** Mauro Paulino,2016-05-10

Exploring the dynamics between victim and offender is paramount to answering important issues of character and vital for forensic research. This involves examining the role of the victim during and after victimization; this process is especially important for spousal violence because of the interactive process between the victim and the offender. Forensic Psychology of Spousal Violence covers the phenomenon of spousal violence and its different forms, discussing the consequences of abuse, providing research tips to be used in the field, including relevant case studies, and much more. The innovative approach of this text fills a void in the current understanding of spousal violence. Uses international statistics to present data of women battered and/or deceased to educate, change mindsets, and practices and ultimately reduce the number of battered women and spousal homicides in the future. Includes current case studies. Includes best practices for spousal abuse investigations. Portable for use in fieldwork.
