Blume, M. Kathleen Heid, 2018-01-01 The depth and breadth of a mathematics teacher's understanding of mathematics matter most as the teacher engages in the daily work of teaching One of the major challenges to teachers is to be ready to draw on the relevant mathematical ideas from different areas of the school curriculum and from their postsecondary mathematics experiences that can be helpful in explaining ideas to students making instructional decisions creating examples and engaging in other aspects of their daily work Being mathematically ready and confident requires teachers to engage in ongoing professional learning that helps them to connect mathematics to events like those they live on a daily basis The purpose of this volume is to provide teachers teacher educators and other facilitators of professional learning opportunities with examples of authentic events and tools for discussing those events in professional learning settings The work shared in Facilitator's Guidebook for Use of Mathematics Situations in Professional Learning Guidebook resulted from a collaborative effort of school mathematics supervisors and university mathematics educators The collaborators joined their varied experiences as teachers coaches supervisors teacher educators and researchers to suggest ways to scaffold activities encourage discussion and instigate reflection with teacher participants of differing mathematics backgrounds and with varying teaching assignments Each guide has ideas for engaging and furthering mathematical thought across a range of facilitator and participant mathematics backgrounds and draws on the collaborators' uses of the Situations with in-service and prospective teachers The events and mathematical ideas connected to each event come from Situations in Mathematical Understanding for Secondary Teaching A Framework and Classroom Based Situations A Situation is a description of a classroom related event and the mathematics related to it For each of six Situations school and university collaborators developed a facilitator's guide that presents ideas and options for

engaging teachers with the event and the mathematical ideas The Guidebook also contains suggestions for how teachers and others might develop new Situations based on events from their own classrooms as a form of professional learning Both teacher educators and school based facilitators can use this volume to structure sessions and inspire ideas for professional learning activities that are rooted in the daily work of mathematics teachers and students *The Successful Virtual Classroom* Darlene Christopher, Karen HYDER, 2014-10-09 Designers and facilitators must adapt their programs and delivery styles to be effective in the new medium that is virtual training Virtual training gives learning professionals unprecedented flexibility making it possible to reach participants globally and unite physically dispersed teams This book goes beyond introducing the technology to offer trainers proven techniques tailored specifically to engage live online audiences In *Successful Virtual Classroom* you will learn how to Make the most of virtual classroom features such as content and screen sharing annotation tools polls and breakout rooms Weave chat responses into the discussion Compensate for the absence of body language Monitor feedback Engage individuals with different learning styles Encourage audience contribution Meet the unique needs of global participants Packed with easy to use tools checklists and worksheets as well as case studies from Oracle UPS and more the book introduces the PREP model for planning rehearsing executing and then conducting a postmortem following the training event Featuring icebreakers and interactive exercises designed for an online environment *Successful Virtual Classroom* helps you create programs that truly drive learner engagement **The Leadership**
