Monroe-Moore, 2012-02-21 In The New Meaning of Educational Change Fullen wrote Low morale depressed feeling unfairly blamed for the ills of society You must be a teacher This quote spoke volumes to me as I watched politicians jockeying for position by spewing their recycled political rhetoric and then launch an all out attack against public school teachers In years past these attacks had been levied against those receiving

social security Medicare and Medicaid which mainly affected the poor disabled and elderly Dont get me wrong these issues are still on the table but I guess politicians felt they had beaten them with a dead horse and needed another soft target to spark the publics interest so public school teachers was it They struck with a vengeance firing public school teachers by the thousands throughout the country In an attempt to reduce the collective bargaining power of teacher unions such as American Federation of Teacher AFT in Texas they claimed the only way they knew to help balance the state and district school budget shortfalls was to rescind some of the benefits they had agreed too It hurts when the profession Ive dedicated over half of my adult life 25 yrs to is under attack by politicians and others that have no true concept of whats involved in being a public school teacher We have absolutely nothing to do with the decision making process First were told to do one thing and then were told to do something entirely different Its almost schizophrenic To all of my colleagues that remain on the frontlines of public education and those that are planning to take up the banner This books for you You might not have control over the decisions being made outside your classroom but you can control those things going on inside I provide ways to control student behavior by the design of your classroom to the use of a simple yellow tablet 101 Ideas for Parent Conferences, Grades K - 6 ,2012-10-22 Everything you need to make parent conferences more efficient and productive Full of engaging and fun ideas this book is a must have for every teacher s bookshelf 80 pages **Involving Parents of Students with Special needs** Jill C. The Other Side of the Report Card Maurice J. Elias,Joseph J. Ferrito,Dominic C. Mocerri,2015-12-14 To better serve the whole child look at the whole report card Although parents and teachers spend more time in conferences talking about behavior than they do about rubrics and test scores too many teachers are still guessing when it comes to using outdated behavior ratings and comments to describe the whole child With this book you ll take report cards to the next level integrating social emotional learning and character development into any grading system Resources include Guided exercises for analyzing existing report cards Suggested report card designs Tips on improving teacher parent communication Case studies Testimonials from teachers and students **School Improvement Through Performance Feedback** A.J. Visscher,R. Coe,2013-10-08 Internationally there is an increasing trend to publish and feed back information to schools and teachers on their functioning School improvement is often the central goal though accountability and the promotion of parental student school choice also play an important role Practical initiatives and research in this field have often failed to recognize the full complexity of improving schools through school performance feedback Relevant questions are for example to what extent the information fed back to schools is valued and understood by them the school performance feedback enables appropriate diagnosis and remediation to take place in schools the use of the feedback generates conflicts and

tensions for teachers and administrators the features of the implementation process and school organization influence the utilization of school performance feedback systems schools do actually improve as a result of performance feedback and the feedback systems have unintended effects This book fills the gap by including a thorough conceptualization of school feedback as a performance enhancing mechanism and the prerequisites for utilizing this information in schools a typology of school performance indicators a review of the research on the impact of feeding back performance information to individuals and to organizations evidence on the process problems and impact of school performance feedback from an international variety of contexts Australia the Netherlands United Kingdom USA and reflections on these experiences within the theoretical framework leading to recommended strategies for school improvement through performance feedback
