Developing Standards-Based Report Cards Thomas R. Guskey, Jane M. Bailey, 2010 Providing a clear framework this volume helps school leaders align assessment and reporting practices with standards based education and develop more detailed reports of children's learning and progress

Overloaded and Underprepared Denise Pope, Maureen Brown, Sarah Miles, 2015-07-27 Praise for *Overloaded and Underprepared* Parents, teachers and administrators are all concerned that America's kids are stressed out, checked out or both but many have no idea where to begin when it comes to solving the problem. That's why the work of Challenge Success is so urgent. It has created a model for creating change in our schools that is based on research and solid foundational principles like communication, creativity and compassion. If your community wants to build better schools and a brighter future, this book is the place to start. Daniel H. Pink, author of *Drive* and *A Whole New Mind*. Challenge Success synthesizes the research on effective school practices and offers concrete tools and strategies that educators and parents can use immediately to make a difference in their communities. By focusing on the day to day necessities of a healthy schedule, an engaging, personalized and rigorous curriculum and a caring climate, this book is an invaluable resource for school leaders, teachers, parents and students to help them design learning communities where every student feels a sense of belonging, purpose and motivation to learn the skills necessary to succeed now and in the future. Linda Darling-Hammond, Charles E. Ducommun, Professor of Education, Stanford University. Finally, a book about education and student well-being that is both research-based and eminently readable. With all the worry about student stress and academic engagement, Pope, Brown and Miles gently remind us that there is much we already know about how to create better schools and healthier kids. Citing evidence-based best practices gleaned from years of work with schools across the country, they show us what is not working but more importantly what we need to do to fix things. Filled with practical suggestions and exercises that can be implemented easily, as well as advice on how to approach long-term change, *Overloaded and Underprepared* is a clear and compelling roadmap for teachers, school administrators and parents who believe that we owe our children a better education. Madeline Levine, co-founder Challenge Success, author of *The Price of Privilege* and *Teach Your Children Well*. This new book from the leaders behind Challenge Success provides a thorough and balanced exploration of the structural challenges facing students, parents, educators and administrators in our primary and secondary schools today. The authors' unique approach of sharing proven strategies that enable students to thrive while recognizing that the most effective solutions are tailored on a school-by-school basis makes for a valuable handbook for anyone seeking to better understand the many complex dimensions at work in a successful learning environment. John J. DeGioia, President of Georgetown University
