

CS50/CS55

Plantronics CS50/55 wireless headset systems combine the clarity of traditional corded technology with the mobility of wireless, so employees can move around the office to wherever business takes them—without interrupting or missing a call.

Continuing our tradition as a technology leader, Plantronics presents CS55 as the first headset in the United States to implement 1.9GHz voice-dedicated wireless technology, while the CS50 operates at a frequency of 900 MHz.

CS50/CS55 Benefits

- Mobile multi-tasking—confering with colleagues, walking to the printer, pouring a cup of coffee—need not interrupt important calls up to 300 feet from a desk phone.
- The CS50/CS55 gives workers 10 hours of unencumbered talk time and the option of remote answering*, so they never miss calls when away from the workstation.
- An extended boom and noise-canceling microphone filter out background sounds for heightened speech clarity.
- Delivers the audio quality of corded handsets—without the tether.
- The clear audio leader: the CS55 is the first headset in the U.S. to offer voice-dedicated 1.9 GHz DECT wireless technology.
- Employees can answer, end, and mute calls on the headset with the touch of a button.
