| <b>Program Aim:</b>        | To improve the assessment and management of acute stroke and TIA in the emergency department                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Program Background:</b> | <p>In consultation with the NICS Emergency Care Community of Practice (EC CoP), stroke management in the emergency department (ED) has been identified as a clinical priority area.</p> <p>There are approximately 60,000 new and recurrent strokes in Australia each year. Around half of these people are over the age of 75 and as the population ages the number of strokes per year will increase.</p> <p>Stroke costs the Australian economy an estimated \$2.14 billion per year. Effective early stroke treatment aims to promote maximum recovery and prevent costly complications and subsequent strokes.</p> <p>Given the ED setting and the varied requirements of acute stroke management, the care bundle approach was selected as an appropriate format for an ED evidence-implementation tool.</p> <p>The NICS stroke care bundle is based on evidence-based recommendations from the National Stroke Foundation (NSF) Clinical Guidelines for Acute Stroke.</p> |
| <b>Program Benefits:</b>   | <p>Implementation of the care bundle will result in:</p> <ul style="list-style-type: none"> <li>▪ Accurate assessment of stroke care in the ED, via audit process.</li> <li>▪ Evidence based care consistent with national guideline recommendations.</li> <li>▪ Timely and accurate assessment of stroke and TIA in the ED.</li> <li>▪ Timely and appropriate clinical management of stroke and TIA in the ED.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
