Levine, Elizabeth Howard, David Moss, 2014-07-11 This volume identifies resources, models, and specific practices for improving teacher preparation for work with second language learners. It shows how faculty positioned themselves to learn from resources, experts, preservice teachers, their own practice, and each other. The teacher education professionals leverage their experience to offer theoretical and practical insights regarding how other faculty could develop their own knowledge, improve their courses, and understand their influence on the preservice teachers they serve. The book addresses challenges others are likely to experience while improving teacher preparation, including preservice teacher resistance, the challenge of adding to already packed courses, the difficulty of recruiting and retaining busy faculty members, and the question of how to best frame the larger issues. The authors also address options for integrating the work of improving teacher preparation for linguistic diversity into a variety of different teacher education program designs. Finally, the book demonstrates a data-driven approach that makes this work consistent with many institutions' mandate to produce research and to collect evidence supporting accreditation. A Book For Every Teacher Nan Li, 2015-03-01 A Book for Every Teacher: Teaching English

Language Learners is a unique and compressive text written for mainstream classroom teachers. The passion for writing this book comes from our working experiences with the K-12 teachers in four school districts through our ELL Center professional development program. Through this program, we provide professional training through our federally funded research and service projects. The purpose of our professional training is to prepare general education teachers to work effectively with English language learners (ELLs). While working with the teachers on a daily basis, we know the immediate needs of the teachers. This motivated us to embark on this book project. In recent years, the ELL school population has the highest increase among school populations. As the NEA data indicates, providing ELL students with high quality services and programs is an important investment in America's future. NEA 2013. This book is our investment in helping teachers to meet their challenges and provide useful information and strategies for teaching ELLs. The book is designed with K-12 teachers in mind. It is best used by teachers who have or will have ELLs in their classrooms and who seek information and strategies to better work with and serve their ELLs to achieve academic success. With this design, teachers can use the book as a text or reference tool. This book can also be adopted as text materials for professional training. Teachers are the most important factor for ELLs' academic success. Teaching Social Studies to English Language Learners Bárbara C. Cruz, Stephen J.
