

## **PATIENT SCENARIO:**

Mrs. Chloe Davenport is a 57 year old woman from Houston Texas and her birthday was one week from today. She arrives at the hospital with a chief complaint of shortness of breath and chest pain. Her husband, John is with her. Mrs. Davenport gives you a copy of her Medcost insurance card which was provided through her employer, Smith Home Interior Design. Her cell phone number is (336) 761-9017 and her email address is cdavenport17@smithdesign.org. Her current address is 852 Meadow Drive, Houston Texas, Zip Code: 30541.

Mrs. Davenport informs you that she is allergic to iodine but no other allergies. She has no significant medical history other than her current symptoms, menopause (age 45), her last mammogram was 1 month ago, and she was hospitalized for pneumonia in December of 2016. She is not currently taking any medications.

Mrs. Davenport's symptoms began 2 days ago and have progressively gotten worse. She has had trouble sleeping and walking long distances without feeling out of breath. It all started after a weekend up in the mountains with her son and daughter-in-law.

On a scale of 1 – 10 her chest pain is around a 7.

In the last 5 years, Mrs. Davenport has no history of mental illness, has experienced no broken bones or strains and does not use orthotics. She is very busy with work and stays on the move designing show rooms for various companies. One of her clients even gave her a free mattress back in March after a successful show! She had her annual physical and wellness visit with her physician in April of last year.

Mrs. Davenport enjoys a glass of wine each night, drinks about 3 cups of coffee per day but does not use tobacco products or drugs. She stays on her feet most of the day with work and sleeps about 7 hours a night. She eats very healthy (low salt, low sugar) and drinks only water throughout the day. She also takes a probiotic vitamin every morning.

Her family history reveals no significant information other than her father passed away at 40 from heart disease and her grandmother has multiple sclerosis.
