Relationship Richard Wevill, 2016-05-23 The history of Britain after the Second World War is essentially the story of her loss of great power status Writers discussing this decline often focus on those sources of power which are tangible and capable of measurement the size of a country's armed forces her Gross Domestic Product or her energy reserves But there are other real sources of power which are not so easily measured The morale of a nation the quality integrity and stability of a country's political system and a nation's sense of unity are all intangible elements So is diplomatic skill which is central to the ability
