and transport jacks in the storage position. **NOTE:** Jack must be fully extended as shown for ground clearance during field use.

- Place wheel support, A, Figure 6, on the tongue support and secure with pin and weld assembly. Move tongue over into the operating position and remove PTO drive line from left and install on pedestal bearing shaft at B.

- Remove pivot pin, B, Figure 7, and turn pivot wheel, A, to the operating position. **NOTE:** The machine must be attached to the tractor as explained in the "Operator" section.

FIGURE 8

- Use loader lifting arms in "Field Operation" section before using machine.

NOTE: To change the machine from the up position to the lateral transport position follow steps 1 through 7 in reverse order. Always change the position of the loader lifting arms with the loader in the operating position. When changing to lateral transport remove the pin in each arm and raise one end of the loader at a time. The arm will then rotate over the side pipe into the raised position. Install the pin in the position for transport before raising the tongue.

OPERATION

TRACTOR WREN

The hitch of the Hydrovac mower-conditioner is designed to be used with a standard tractor hitch.

The tractor draw bar and PTO location must meet the standard AGS specifications and measurements as shown in Figure 9. The tractor to be used must have a 540 RPM PTO speed. **Do not overgear.**

FIGURE 9

NOTE: Whenever possible, make sure the draw bar height is not less than 18" from the ground to the top of the draw bar. A low draw bar height will affect the loader rotation and pivot angle.

ATTACHING TO THE TRACTOR

Secure the tractor draw bar on the hitch pin hole in directly below the PTO drive line.

NOTE: If the tractor has Super Lift arms, raise the arms or remove them to prevent damaging

the drive line or the hose clamp on the PTO support.

- Use a hitch pin, Figure 9, and a heavy cotter or other means to securely fasten hitch pin.
- Remove the weight from the jack and place the handle in the storage position shown at C, Figure 10. Raise the jack in the highest position for field use.
- Depress the spring-loaded pin on the PTO shaft and attach it to the tractor PTO. Make sure the pin falls in the groove of the tractor PTO shaft.
- Position the tongue guard, E, Figure 9, so the tractor tire contacts the full surface of the guard when turning sharply to the right.

Adjust the height of the tipping bearing support B, Figure 9, so the drive line is in as straight a line as possible from the tractor PTO shaft to the pedestal bearing support. Six positions are available.

HYDRAULIC CYLINDER

Attach the end of the cylinder as shown at A, Figure 10. Use either a single or double acting hydraulic cylinder. Make sure the cylinder is a standard AGS remote cylinder that measures 2 1/2" when fully extended. If hose extensions are needed they can be obtained from your Sperry New Holland dealer. The extension should be long enough for use with the particular tractor being used.

Handbook of Behavior Therapy in Education S.N. Elliott,F. Gresham,J.C. Witt,2013-11-11 What do we know about behavioral analysis and intervention in educational settings Given that educational institutions were among the first to embrace the new technology of behavior change in the late 1950s and early 1960s it is apparent that we have had the opportunity to learn a great deal The evolution of the field of behavior therapy has witnessed a change in the behavior therapist from an adolescent fascination with repeatedly demonstrating the effectiveness of the new technology to a mature recognition of the complex implications of the behavioral paradigm for individuals systems and society Many facts now taken for granted were considered impossibilities a mere two decades ago In her 1986 presidential

address to Division 25 of the American Psychological Association Beth Sulzer Azaroff reviewed a number of changes in attitude in education that were strongly influenced by behavior therapy Most educators now agree that a everyone can learn b complex skills can be taught c precise general and durable performance can be taught and d barriers to learning can be overcome In addition we would add that behavior therapy is being applied to increasingly more complex human problems such as social skill deficits internalizing disorders and dysfunctional systems and organizations
