Qualitative Analysis in the Making Daniella Kuzmanovic, Andreas Bandak, 2014-10-10 How do scholars transform qualitative data into analysis What does making analysis imply What happens in the space in between data and finalized analysis is notoriously difficult to talk about In other parts of the research process scholars and students are aided by method books that describe the technicalities of generating processing and sorting through data handbooks that teach academic writing and scholarly works that offer meta level theoretical perspectives Yet the path from qualitative data to analysis remains a black box *Qualitative Analysis in the Making* ventures into this black box The volume provides a means of speaking about how analyses emerge in the Humanities Contributors from disciplines such as anthropology history and sociology of religion all employ an analytical double take They revisit one of their analyses analyzing how this particular analysis came into being Such analyses of an analysis are neither confessions nor step by step recounts of what happened Rather the volume argues that speaking of the space in between requires analytical displacement and the employment of fresh analytical takes This approach contributes to demystifying the path from qualitative data to finalized analysis It invites novel epistemological reflections among scholars and assists students in improving their analytical skills [Countering the Global](#), 2025-01-23 Most great religious traditions are global in scope but they are often used to promote nationalist and isolationist ideas Why do politicians in Poland and Lithuania stress the strong bond between the Catholic Church and the national identities And how are ethno religious conflicts expressed in Norway In this book you will find new data and new insights providing explanations for these and other questions Fascinating case studies from Europe and China are the basis for analyses on how global interconnectedness sparks both unity and conflict within religious spheres demonstrating the interplay of local and global influences as well as the dynamics of glocalization Contributors are Milda Ali auskien Peter B Andersen Eileen Barker Peter Beyer Irena Borowik Lisbet Christoffersen Inger Furseth Peter Gundelach Annika Hvithamar Massimo Introvigne Hans Raun Iversen Brian Arly Jacobsen Niels K rgaard P l Repstad and Morten Warmind Brill publications by Margit Warburg Books Citizens of the World A History and Sociology of the Baha is from a Globalisation Perspective 2006 ISBN 978 90 04 14373 9 Hardback 978 90 47 40746 1 E Book Published as Volume 106 in Numen Book Series Holy Nations and Global Identities Civil Religion Nationalism and Globalisation 2009 Edited with Annika Hvithamar Brian Jacobsen ISBN 978 90 04 17828 1 Hardback 978 90 47 44063 5 E Book Published as Volume 10 in International Studies in Religion and Society Book chapters journal articles Globalization Migration and the Two Types of Religious Boundary A European Perspective In Peter Beyer Lori Beaman Eds Religion Globalization and Culture 2007 pp 79 99 ISBN 978 90 04 15407 0 Paperback 978 90 47 42271 6 E Book Published as Volume 6 in International Studies in Religion and Society Chapter DOI <https://doi.org/10.1163/ej.9789004154070.i608.34> Introducing Civil Religion Nationalism and Globalisation With Annika Hvithamar In Annika Hvithamar Brian Jacobsen Margit Warburg Eds Holy Nations and Global
