Refining Processes Handbook Surinder Parkash Ph. D, 2003-10-16 Besides covering topics like catalytic cracking hydrocracking and alkylation this volume has chapters on waste water treatment and the economics of managing or commissioning the design of a petroleum refinery Found only in this volume is material on operating a jointly owned and operated refinery Over the last decade the ownership of many refineries has shifted to small companies from the large integrated companies Because of this shift many refineries are now jointly owned and operated Filled with handy process flow diagrams this volume is the only reference that a chemical engineer or process manager in a petroleum refinery needs for answers to everyday process and operations questions Covers the technologies and operations of petroleum refineries Provides material on operating a jointly owned and operated refinery Gives readers a comprehensive introduction to petroleum refining as well as a full reference to engineers in the field Australian Chemical Engineering ,1966 **The Routledge International Handbook of Autoethnography in Educational Research** Emilio A. Anteliz, Deborah L. Mulligan, Patrick Alan Danaher, 2022-11-10 The Routledge International Handbook of Autoethnography in Educational Research presents diverse and rigorous contemporary research at the intersection between autoethnography and educational research The handbook investigates the bidirectional connection between autoethnography and educational research in relation to four themes enhancing teaching and teacher education with autoethnography enlarging doctoral study and supervision with autoethnography conducting identity work and relationship building via autoethnography and promoting social justice through autoethnography In addition to the synthesising introduction and conclusion chapters the 27 main chapters in the handbook cover current research from Africa Aotearoa New Zealand Australia Bangladesh Canada Spain the United Kingdom the United States and Venezuela The chapters present novel applications of several key concepts and research methods including activism arts based research critical reflection decolonising feminism doctoral study and supervision hybrid identities Indigenous research migrant education racism researcher self efficacy teacher identity visual autoethnography and writing as voice This book will be of use to all researchers and doctoral and Masters students using qualitative and autoethnographic methods in Education and related fields **Refining Processes Handbook** ,2004 *Handbook of Petroleum Refining Processes (3rd Edition)*.
