Multi-level management involvement is generally very important. Management interest must extend to all levels, starting with shareholders. It is useful for managers to think about the effects the company's strategy has on just the general ledger. Shareholders and customers are the primary financial stakeholders with the company, and the level of corporate involvement in the company's strategy and the degree to which the strategy itself needs to change, depend on whether the company is facing an acute crisis, changing and values about government and society are under fire now. On Wednesday night, approximately 100,000 people gathered on the roof of the Kohn Building for the Assembly's session on the emergency budget, calling the Senate's position on the emergency referendum "a very self-serving political move." Many members of the Assembly shared the sentiment. Assembly Speaker John Jay, who was present, said the Assembly will consider whether to pass the emergency referendum on the self-serving budget for government or instead leave taxpayers with more than \$200 million in debt. He said the Assembly should be given the right to "take the emergency budget off the table" as the emergency referendum should be used to "take the emergency budget off the table."

Students will often produce a sentence describing an event and then quickly translate it to the next step in the process. For instance, a child might say, "I'm washing my hands," and then say, "I'm drying my hands." The teacher can then ask the student to describe the next step in the process, such as "I'm putting on my shirt." This can help the student to develop a more complete understanding of the process.
