New Developments in Online Marketing Stephen Tagg,Alan Stevenson,Tiziano Vescovi,2013-09-13

There can be little doubt about the profound impact that the Internet has had on all aspects of business over the past decade Indeed it is now widely accepted that we have entered a new and even more revolutionary phase in the development of the Net as a global marketing and communications platform a phase characterised by information pull rather than push user generated content openness sharing collaboration interaction communities and social networking New generation Web based communities and hosted applications are beginning to have a major impact on customer behaviour across a diverse range of industries These new applications represent a fundamental change in the way people use the Internet their online expectations and experiences From a marketing perspective the most distinctive feature is not the technology involved but rather the growth of a new global culture a Net generation culture based on decentralised authority rather than hierarchy and control online socialising and collaboration user generated and distributed content open communications peer to peer sharing and global participation Success in this new online environment characterised by people and network empowerment requires new mindsets and innovative approaches to marketing customer and network relationships This book makes a valuable contribution to the field by examining recent and future developments in online marketing including the revolutionary impact of new media Chapters cover a wide range of topics including information exchange on bulletin board systems and in online consumer portals Web 2 0 and New Wave Globals online tribal marketing co creation industry impact privacy issues online advertising effectiveness and practitioner prognostics for the future of online marketing This book was originally published as a special issue of the Journal of Marketing Management

The Cyber Meta-Reality Joshua A.

Sipper,2022-04-04 As one begins to explore the many complexities of quantum computing nanotechnology and AI it becomes clear that there is an underlying reality within cyberspace that is comprised of other realities and that these realities all have

their own biomes ecosystems and microbiomes built on information energy and human creative reality and potential It is clear that there has not been much research on this especially the piece dealing with the cyber microbiome which looks at the part of the iceberg that is under the surface and makes up most of cyberspace much like how our human microbiome is many orders of magnitude larger than our human cells The microbiome is extremely important from the perspective of how to treat diseases in humans especially bacterial infections The same is true for how to treat diseases in the cyber meta reality Thus knowing all we can about the cyber meta reality biome and microbiome is absolutely necessary in ensuring this world s growth care and flourishing
