Marty Richburg Northside High School Education and climate change Samantha Govender, Mncedisi C Maphalala, Dumisani W. Mncube, 2025-06-15 The book highlights the critical yet often overlooked role of education in combating climate change. It advocates for a transformative educational framework that integrates social emotional learning and interdisciplinary collaboration. Traditional education which focuses solely on factual knowledge is deemed insufficient. Instead, education should foster empathy, provide hands-on experiences and encourage active engagement in climate solutions. The book outlines various ways education can drive climate action such as raising awareness, preparing individuals for green jobs, empowering communities and fostering innovation in higher education. It highlights the interconnectedness of climate change and education particularly for marginalised populations showing how quality education can enhance both mitigation and adaptation strategies while supporting Sustainable Development Goal SDG 4 and SDG 13. Key chapters discuss successful initiatives such as the Keep it Cool Climate Change Education KIC CCE project in South Africa and offer strategies for integrating climate change education into subjects like Natural Sciences and Geography. Ultimately, the book positions education as a strategic tool for promoting sustainable development and building climate resilience. New research findings presented in the book connect education to climate change, highlighting education as both a tool to address climate issues and a domain affected by these issues. The book integrates empirical evidence, innovative theories and practical examples to ensure intellectual integrity and academic rigour. It introduces a unique framework that emphasises social emotional learning, action-oriented teaching and interdisciplinary collaboration. Case studies such as the KIC CCE initiative in South Africa illustrate these concepts. The book critiques traditional models and advocates for transformative approaches to climate education aligning with SDG 4 Quality Education and SDG 13 Climate Action. It also highlights the significance of teacher preparedness, community empowerment, gender equality and innovation, providing valuable insights for scholars, policymakers and practitioners addressing the climate crisis.

Daily Reflections for Educators, Coaches, Leaders, and Life Constant Hine, 2024-06-25 With *Daily Reflections for Educators, Coaches, Leaders, and Life*, build a practice of daily reflection to transform your teaching and leadership. Reflection is the best way to bring sticky, sustainable change. Developing a reflective mindset helps us become self-empowered, lifelong problem solvers who create meaningful and fulfilling lives both personally and professionally. Coaches, leaders, and all agents of change in early childhood education need to hone their own reflective practices not only to gain self-awareness and make mindful decisions but also to facilitate reflection with the people they support. Through reflection, we make intentional choices to achieve the success we desire. Reflection is not an event, not just an activity, but a lifestyle. This book offers 12 reflective themes for cultivating both personal and professional self-realization and becoming a transformational change agent who helps others do the same. There are 365 entries, one for each day of the year. Each entry has a quotation with a commentary to feed the day's reflection as well as a suggestion for reflective practice. One entry every week offers the opportunity to review the previous week or sets up a focus for the coming
