Rationale of Judicial Evidence Jeremy Bentham,1827 **Euthydemus** Plato,Aeterna Press,2015-09-01 THE Euthydemus though apt to be regarded by us only as an elaborate jest has also a very serious purpose It may fairly claim to be the oldest treatise on logic for that science originates in the misunderstandings which necessarily accompany the first efforts of speculation Several of the fallacies which are satirized in it reappear in the Sophistici Elenchi of Aristotle and are retained at the end of our manuals of logic But if the order of history were followed they should be placed not at the end but at the beginning of them for they belong to the age in which the human mind was first making the attempt to distinguish thought from sense and to separate the universal from the particular or individual Aeterna Press *The Contemporary Review* ,1892 **A Short Catechism against all Sectaries. psychology including debates between Humeans and anti Humeans about both motivating and normative reasons Character and Causation takes the form of a series of essays which collectively argue that Hume s overall project proceeds by way of a soft conceptual revisionism that emerges from his Copy Principle This involves re calibrating our philosophical ideas of all that agency involves to fit a scheme that more readily matches the range of impressions that human beings actually have On such a reading once we rid ourselves of a certain kind of metaphysical ambition we are left with a perfectly adequate account of how it is that people can act in character freely and for good reasons The resulting picture is one that both unifies Hume s practical and theoretical philosophy and radically transforms contemporary philosophy of action for the better
