

Position Paper

The position paper format that will be used in this simulation will have 5 parts: the heading; introductory paragraph explaining the topic you are debating; how your country is affected or not by the problem; the solutions that have been used to solve the problems and the ones your delegation propose; and finally the sources where you got all the information. The position paper has to be no longer than one page and a half with Arial 12 and 1.5 spacing.

The Heading

Different models use different types of heading, but the one that you will use is the following:

Committee: (You should put the name of your committee, no abbreviations)

Country: (The country you are representing)

Topic: (The complete topic you are adjourning. For example, if you are discussing Health Care in the Conflict Zones of the Middle East, you have to write the complete name of the topic and not Health in the Middle East)

Delegate: (Your complete name)

School: (Your school's complete name)

Introductory paragraph

Here is where you will briefly explain what the problem is in general terms. This will help everyone in the committee understand the topic they will discuss during the sessions. You can write definitions, statistics or anything you think will help everyone get the context of the situation, but this paragraph cannot be too long.

Your country's relation with the topic

In this paragraph you will have to give arguments of how the topic of the committees is affecting or not affecting your country. Include the policies or laws your country has about the problem and its reason to or not to have them. You can write a phrase a leader from the country you are representing said, but only if it has to do with the topic. Statistics can be used to back up your country's laws or reasons. Use anything you think is necessary to explain how your country is involved in the committee's topic, this are a few examples.

Solutions

The final paragraph is where you state the solutions your delegations or the United Nations have made and the solutions your country is proposing. Explain how your delegation is planning to accomplish those solutions and say how your delegation is considering financing it.

The sources

You should enlist all the websites, books, magazines or any other source you used to make your position paper, using MLA or APA format.

Author(s) (Last name, first name). "Article name". Publication date. <URL> The date you consulted it.

Example:

Centers for Disease Control. "Preventing Foodborne Illness." 9 Aug. 1996.

<http://www.cdc.gov/ncidod/diseases/food%20borne/e_coli.htm> 12 June 1998.

First Do No Harm Adrienne Harris, Steven Botticelli, 2011-01-19 At the outset of World War I the Great War Freud supported the Austro Hungarian Empire for which his sons fought But the cruel truths of that bloody conflict wrought on the psyches as much as the bodies of the soldiers returning from the battlefield caused him to rethink his stance and

subsequently affected his theory Psychoanalysis a healing science could tell us much about both the drive for war and the ways to undo the trauma that war inherently breeds but its principles could just as easily serve the enemy's desires to inculcate its own brand of truth Even a century later psychoanalysis can still be used as much for the justifications of warfare and propaganda as it is for the defiance of and resistance to those same things But it is in the investigation of the motives and methods behind these uses that psychoanalysis proves its greatest strength To wit this edited collection presents published and unpublished material by analysts writers and activists who have worked at the front lines of psychic life and war from various stances Set at a point of tension and contradiction they illustrate the paradoxical relation of psychoanalysis as both a site of resistance and healing and a necessary aspect of warmaking propaganda and militarism In doing so we venture from the home front from the trauma of returning veterans to the APA's own complicity in CIA black sites across international borders from the treatment of women in Latin American dictatorships to the resistance to occupation in Palestine from mind control to an ethics of responsibility Throughout a psychoanalytic sensibility deconstructs the very opposition that it inhabits and seeks to reestablish psychoanalysis as the healing discipline it was conceived to be
