

The Product Positioning Map

Product - Positioning Map | template

+ High (define value)

Positioning is a simple and useful tool. After segmenting a market and then targeting a consumer, you would proceed to position a product within that market.

Positioning is all about "**perception**". Perception differs from person to person and person so do the results of the positioning map.

Products or services are "**mapped**" together on a "Positioning map", allowing comparison/ contrast in relation to each other.
