Italo Calvino – important Italian writer who wrote “The Nonexistent Knight” and “Cosmicomics”. He was at first entranced with the Communist movement but later became disillusioned. He also promoted many other writers and was often mentioned as a candidate for the Nobel Prize for literature. Postmodern Period author

Portfolios – teachers can monitor progress over time. Students get a sense of ownership when they pick pieces to include. Authentic evidence of progress can be shared with parents. Also support accountability and can help maintain the focus of assessment

Pride and Prejudice is an example of a novel. A novel is a realistic story that could really happen or could have happened

William Butler Yeats and TS Eliot are associated with the literary movement known as Symbolism. Wordsworth, Lord Byron, Percy Bysshe Shelly and Victor Hugo are writers of romantic literature which flourished during the 18th and 19th centuries. Their books emphasize the beauty and wildness of nature, the freedom and nobility of individuals, freedom of emotion, and the glories of a pastoral life.

Realism, a reaction to romanticism, was popular during the 19th century, and focused on the realities of life. Writers include Gustave Flaubert, George Eliot, Fyodor Dostoevsky, and Leo Tolstoy.

The modernist Movement arrived in the early decades of the 20th century. Modernists used experimental forms and asked readers to realize that knowledge is not absolute. A loss of a sense of tradition and the dominance of technology characterize this movement’s writings. Writers were influenced by Einstein, Max Planck (quantum theory), and Freud.

Surrealism also flourished in the 20th century, and features an element of surprise, unexpected juxtapositions and non sequitur. Movement began in Paris in the 1920s with Andre Breton. Surrealists attacked false rationality and restrictive customs and structures. Many espoused communism and anarchism.

Symbolism flourished in the last two decades of the 19th century. This movement began in France as a reaction to realism. Symbolism uses poetic expression to show personal emotion by use of symbols which are identified with a particular poet. Authors who used symbolism are Charles Baudelaire, Arthur Rimbaud, William Butler Yeats, James Joyce, and T.S. Eliot.

The revision operation of Adding Information is the easiest for introducing students to revision. For beginning writers, adding is easier than deleting. Words, phrases, or sentences can be added to make writing more complete. Deleting unnecessary words, phrases, or sentences is the next step. Rearranging words, phrases, sentences, or paragraphs can be a challenge for beginning writers, and is the most difficult revision operation to master. Substituting is simultaneously adding and deleting.

Virgil was a Roman Writer.

Expanding Transformation Theory Alexis Kokkos, 2020-04-07 Expanding Transformation Theory offers a deeper understanding of the philosophy principles and major components of Transformation Theory which was developed by Jack Mezirow. It provides a thorough comprehension of the affinities of the theory with other emancipatory theoretical views and provides the readers with an expanded insight of the core theoretical framework that will support their research and educational practice. The book juxtaposes Mezirow's perspective with those of ten major emancipatory educationalists: Dewey, Freire, Gould, Marsick, Socrates, Kegan, Greene, Argyris, Illeris, and Jarvis respectively, who all share the idea of learning with the aim of changing problematic perceptions and behaviours. Such issues as convergences and divergences among the theoretical perspectives as well as the impact of the theoretical ideas that Mezirow incorporated in his work are addressed. The work of Mezirow is further reviewed in order to pinpoint the dimensions which appear to have been confirmed and endure over time and in turn those that seem to need expansion or even revision. This book will be of great interest to researchers, academics, students, and adult educators who are interested in transformative learning theory and emancipatory education.

Social Theory: Continuity and Confrontation Roberta Garner, Black Hawk Hancock, 2014-04-29 The third edition of this popular reader reflects considerable changes. With over seventy readings representing a wide diversity of theorists, it offers a breadth of coverage not available in other collections. The framework for understanding theory as a set of conversations over time is maintained and deepened with a focus on key transitional theorists who helped pave the way from classical to contemporary theory. New contextual and biographical materials surround the primary readings, and each chapter includes a study guide with key terms, discussion questions, and innovative classroom exercises. The result is a fresh and expansive take on social theory that foregrounds a plurality of perspectives and defines contemporary trends in the field while being both an accessible and manageable teaching tool.
