

Electronic Feedback: Missa, Student Activity Response

Investigation 1

1. The company's traditional policy of strict architecture rules combined the fact that people are used to doing what they do.
2. All other things equal, increased price would probably cause sales to increase. Increased income would tend to increase demand.

Investigation 2

1. The demand will probably increase because more customers are expected to come.
2. Because they are young, they are more likely to be a more mobile group of people. Because their higher buying rate is more important for the same time, more customers may be expected to visit the store and be influenced by product selection. Their income/wealth may also influence the demand for their products.

Investigation 3

1. Higher prices for continuing students, lower demand for high school and college students. Higher equipment costs or higher costs will also tend to increase.
2. The school will be more likely to be more likely to change production or delivery, which will increase equipment and other equipment for the same time and money.
