bad behavior The Wall Street Journal LONGLISTED FOR THE FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF
THE YEAR AWARD Based on years of reporting on Samsung for The Economist The Wall Street Journal and Time from his
base in South Korea and his countless sources inside and outside the company Geoffrey Cain offers a penetrating look behind
the curtains of the biggest company nobody in America knows Seen for decades in tech circles as a fast follower rather than
an innovation leader Samsung today has grown to become a market leader in the United States and around the globe They
have captured one quarter of the smartphone market and have been pushing the envelope on every front Forty years ago
Samsung was a rickety Korean agricultural conglomerate that produced sugar paper and fertilizer located in a backward
country with a third world economy With the rise of the PC revolution though Chairman Lee Byung chul began a bold
experiment to make Samsung a major supplier of computer chips The multimillion dollar plan was incredibly risky But Lee
wowed by a young Steve Jobs who sat down with the chairman to offer his advice became obsessed with creating a tech
empire And in Samsung Rising we follow Samsung behind the scenes as the company fights its way to the top of tech It is one
of Apple s chief suppliers of technology critical to the iPhone and its own Galaxy phone outsells the iPhone Today Samsung
employs over 300 000 people compared to Apple s 80 000 and Google s 48 000 The company s revenues have grown more

than forty times from that of 1987 and make up more than 20 percent of South Korea's exports Yet their disastrous recall of the Galaxy Note 7 with numerous reports of phones spontaneously bursting into flames reveals the dangers of the company's headlong attempt to overtake Apple at any cost A sweeping insider account Samsung Rising shows how a determined and fearless Asian competitor has become a force to be reckoned with

Ever wondered what it would be like to be a street magician in Paris A fish farmer in Norway A costume designer in Bollywood This playful and accessible look at different types of work around the world delivers a wealth of information and advice about a wide array of jobs and professions The value of this book is twofold For young people or middle aged people who are undecided about their career paths and feel constrained in their choices A World of Work offers an expansive vision For ethnographers this book offers an excellent example of using the practical details of everyday life to shed light on larger structural issues Each chapter in this collection of ethnographic fiction could be considered a job manual Yet not any typical job manual to do justice to the ways details about jobs are conveyed in culturally specific ways the authors adopt a range of voices and perspectives One chapter is written as though it was a letter from an older sister counseling her brother on how to be a doctor in Malawi Another is framed as a eulogy for a well loved village magistrate in Papua New Guinea who may have been killed by sorcery Beneath the novelty of the examples are some serious messages that Ilana Gershon highlights in her introduction These ethnographies reveal the connection between work and culture the impact of societal values on the conditions of employment Readers will be surprised at how much they can learn about an entire culture by being given the chance to understand just one occupation
