A Shining Portal Leonard J. Griego, 2006-10-24. An Adventure Science Fiction Love Story. An 83-year-old man on his last hike in the San Juan Mountains of Southern Colorado finds or is led to a Portal into another world. There he encounters two Black Wolves that have been waiting for him. Into his life has come a lovely woman. He first sees her when she is about fourteen and as she keeps appearing to him in the mountains where he lives, he can watch her grow into a woman. He keeps seeing her in the same small town somewhere. She appears to him by the Portal and she asks him when is he coming for her. After much inner turmoil, he is 83 years old, he finds her, is transformed into the man she has been seeing, a man she has known for a long, long time. He takes her back to his strange new world and there begins the process of rediscovering who they really are and who the Wolves are. There they encounter a Horror they have been chasing through time. Through time they remember who they are. They have come to Earth centuries before have been at Troy and with Charlemagne at Roncesvalles and many other battles have become human, living and dying, losing each other many times. Gradually and reluctantly with the Wolves' help they discover who they are and the reason for their lives, which is to eradicate the Universe of the Black Horror they have been pursuing. The only way to fight them is in hand-to-hand combat; he is a Swordsman and she is an Archer and the Wolves have been bred to fight alongside them. The Horror's reason for existence is to cleanse whole planets so their masters can move there. The Monsters have been brought to Earth and the last battle will be there. The final battle begins at Roncesvalles in Northern Spain where he fought in 787, continues in Space and finally on the Tundra of Northern Canada.

Mythic Portals Theresa Walton, AI, 2025-02-26. *Mythic Portals: Uncovering Legends of Hidden Gateways Between Worlds* explores humanity's long-held fascination with portals, gateways between our world and other realms. From ancient myths to modern fantasy, the concept of these interdimensional gateways reveals fundamental aspects of human psychology and spirituality. Consider the Gates of Ishtar in Babylonian mythology, seen as a literal and symbolic entrance to the city, or the various pathways to the underworld in Greek stories, each reflecting cultural anxieties and hopes. The book examines the historical evolution of portal narratives, tracing their development across cultures and religions. Beginning with foundational myths, the study progresses through historical periods and diverse faith traditions, analyzing the role of portals in rituals, spiritual ascensions, and literature. The approach blends comparative mythology, religious studies, and literary criticism to offer a nuanced understanding. *Mythic Portals* culminates in a discussion of the enduring power of these myths, suggesting they reflect our need to transcend limitations and explore the boundaries of consciousness. By examining ancient texts, archaeological findings, and modern fantasy, the book provides a comprehensive
