Take a dip in the jar to learn about some common types of smaller pond life, with links to [Microscope Magazine](#) resources.

The tiny organisms found in pond water are fascinating subjects to study under the microscope, and can captivate both beginners and experienced microscopists for a lifetime!

This virtual pond dip introduces some of the commoner types and hopefully encourages an exploration of the incredible 'world within a world' of a real pond.

Click the mouse over each organism to display its factfile, which also gives links to more detailed articles. Each organism's relating size is to scale in the image; actual sizes are given in the factfiles.

A more extensive guide to major groups of pond life can be found on the [Pond Life Identification Kit](#) pages.

You don't need any special equipment to begin studying pond life. For simple tips, see [how to collect microscopic pond life](#).

Notes on the factfiles this jar links to and sources of information are [here](#).
