Texas Market Hunting R.K. Sawyer, 2024-08-05 From its earliest days of human habitation the Texas coast was home to seemingly endless clouds of ducks geese swans and shorebirds By the 1880s Texas huntsmen or market hunters as they came to be called began providing meat and plumage for the restaurant tables and millinery salons of a rapidly growing nation A network of suppliers packers distribution centers and shipping hubs efficiently handled their immense harvest At the peak of Texas market hunting in the late 1890s Rockport merchants shipped an average of 600 ducks a day in a five month shooting season and in the last year of legal market hunting an estimated 60 000 ducks and geese were shipped from Corpus Christi alone Market men employed efficient methods to harvest nature's bounty They commonly hunted at night often using bait to concentrate large numbers of waterfowl The effectiveness of the hunt was improved when side by side double barrel shotguns and large gauge swivel guns gave way to repeating firearms with some capable of discharging as many as eleven shells in a single volley Their methods were so efficient that by the late 1800s Texas sportsmen and others blamed the alarming decline of coastal waterfowl populations on the market hunter's occupation In 1903 after a long fight and many failures the first migratory bird game law passed the Texas legislature Though the fight would continue it was the beginning of the end of the year round slaughter Most market hunters quit and those who didn't became outlaws In this book R K Sawyer chronicles the days of market hunting along the Texas coast and the showdown between the early game wardens and those who persisted in commercial waterfowl hunting Containing an abundance of rare historical photographs and oral history *Texas Market Hunting Stories of Waterfowl Game Laws and Outlaws* provides a comprehensive and colorful account of this bygone period *Kayaking the Texas Coast* John Whorff, 2011-02-10 Few
