Leung, Cho-Li Wang, Taeshik Shon, 2012-06-05 This book is proceedings of the 7th FTRA International Conference on Future Information Technology FutureTech 2012 The topics of FutureTech 2012 cover the current hot topics satisfying the world wide ever changing needs The FutureTech 2012 is intended to foster the dissemination of state of the art research in all future IT areas including their models services and novel applications associated with their utilization The FutureTech 2012 will provide an opportunity for academic and industry professionals to discuss the latest issues and progress in this area In addition the conference will publish high quality papers which are closely related to the various theories modeling and practical applications in many types of future technology The main scope of FutureTech 2012 is as follows Hybrid Information Technology Cloud and Cluster Computing Ubiquitous Networks and Wireless Communications Multimedia Convergence Intelligent and Pervasive Applications Security and Trust Computing IT Management and Service Bioinformatics and Bio Inspired Computing Database and Data Mining Knowledge System and Intelligent Agent Human centric Computing and Social Networks The FutureTech is a major forum for scientists engineers and practitioners throughout the world to present the latest research results ideas developments and applications in all areas of future technologies Global Strategies in Retailing John Dawson, Masao Mukoyama, 2013-10-08 Large and medium sized retailers have increased their international operations substantially over the last 25 years This is evident in the number of countries to which these retailers expand the growing international sales of retailers and the heightening of the level of commitment of retailers to their international activity a trend that is likely to continue over the next decade as general globalization in the service industries increases The managerial implications of the moves to become global are considerable Different retailers are pursuing different approaches to varying degrees of success and are no longer simply multi national but are also multi continental Consequently existing concepts and theories of international business fit uneasily in explanations of international retailing so new corporate strategies need to be explored Featuring in depth studies of seven retailers by international scholars from Japan the UK and Sweden Global Strategies in Retailing explores recent developments in strategy that are related to international retailing and in particular the emergence of a Global Portfolio Strategy As such this book will be important reading for all international business and retailing students and academics researching in these areas **Vascular Surgery** George Geroulakos, Hero van Urk, Robert W. Hobson II, Keith D. Calligaro, 2013-11-11 This book is rather unique among textbooks in vascular surgery Most cover the surgical management of vascular diseases in whole or in part in standard textbook fashion with the text organized to cover the topics methodically in a didactic manner and supported by tables illustrations and references Others have special purposes such as atlases on technique or algorithm based books on decision making All have their place but if the educational goals are training of the young surgeon self assessment and continuing medical education for the

practitioner or preparation for oral examination this book fills a special need and fills it very well by breaking away from the didactic approach It has long been recognized by educators that retention of knowledge i e true learning are much better achieved using the Socratic method of questions and answers as opposed to simply reading or being told facts In this book this approach is developed and presented in a very effective manner In each chapter one is presented with a case report representing a real life scenario The case reports scenarios in this book together cover most of vascular surgery experience
