Elephant

All About Elephants by HeadFirst

There are three kinds of elephant: Asian elephant, African savanna elephant and African forest elephant. A father elephant is called a bull and a mother is called a cow.

Together they have baby calves. Mothers take care of their calves for five years. They live in a group of elephants called a herd.

Elephants have long front teeth called tusks. They use them to move things, and when they fight. Another use is their trunks which they use to breathe, smell, drink and more.

Elephants are herbivores which means they eat mostly grasses and plants. They can eat 200-600 pounds of food a day.
